<u>1st Quarter 2010 – Key facts in brief</u>

In the first quarter of 2010, Baader Bank AG held its ground in the turbulent situations on the capital market. This meant defying both the effects of the debt crisis in Greece and other euro countries and also the continuing risks of the financial market crisis. At the same time, the Bank pushed forward with investigating new business segments and optimising existing ones. All in all, there was a good start to the 2010 financial year.

As part of the expansion of its business activities, Baader Bank AG is increasingly acting as a market maker on off-exchange trading platforms. For instance, since the first quarter of 2010 Baader Bank AG has provided quotes for buying and selling prices in euro for customers of maxblue, Deutsche Bank AG's online broker. After the inclusion of 500 German shares, the shares in the Eurostoxx, Nasdaq and Dow Jones indices and all shares in the Nikkei and Hang Seng indices in its activities, among other shares, Baader Bank AG now provides quotes for approximately 2,500 shares on maxblue.

In addition, Baader Bank AG is now a new partner in DAB bank's off-exchange trading platform, "DAB Sekunden-Handel". As of April 2010, customers of DAB bank can directly buy and sell approximately 2,500 funds via Baader Bank AG.

Since 31 March 2010, the price of the Baader share is determined in the m:access market segment in OTC trading on the Munich Stock Exchange. The management of the Munich Stock Exchange had granted Baader Bank AG's request to revoke the admission of its shares for trading on the regulated market on the Munich Stock Exchange. Corresponding requests by Baader Bank AG had previously been approved by the Berlin, Frankfurt and Stuttgart Stock Exchanges. In addition to Munich, the share will continue to be traded over-the-counter on all German stock exchanges.

Due to its publicity and transparency requirements, the m:access market segment is a fully functioning, attractive market, whose protective mechanisms closely approximate those of the regulated market and which ensures the marketability of the shares. The concentration on m:access

leads to bundling of liquidity and an improvement in the perception of the Baader share at reduced, sensible costs.

Baader Bank continues to prepare its accounts in accordance with IFRS (International Financial Reporting Standards). However, this quarterly report is not an interim report under IAS 34.

At the end of 30 April 2010, Mr. Stefan Hock (53) left the Board of Directors of Baader Bank AG. By mutual agreement with the Supervisory Board, his contract, which ran until 31 December 2010, was not extended. Mr. Hock had been a member of the Board of Directors of Baader Bank since 1 May 2000 and was responsible for managing the Capital Market Services unit, which in future will come under the responsibility of Mr. Nico Baader in the Board of Directors.

| 12. Other assets | 3.937 | 3.751 | 5,0 |
| 13. Deferred tax assets | 16.879 | 19.011 | -11,2 |
| Total assets | 469.582 | 439.829 | 6,8 |

| LIABILITIES AND EQUITY | 31.03.2010 EUR thou | 31.12.2009 EUR thou | Change % |
|---------------------------------|------------------------|------------------------|-------------|
| 1. Deposits from other banks | 36.929 | 31.605 | 16,8 |
| 2. Amounts due to customers | 206.959 | 194.617 | 6,3 |
| 3. Liabilities held for trading | 9.667 | 824 | >100,0 |
| 4. Provisions | 11.630 | 11.757 | -1,1 |
| 5. Income tax liabilities | 1.909 | 880 | >100,0 |
| 6. Other liabilities | 15.315 | 16.289 | -6,0 |
| 7. Deferred tax liabilities | 4.612 | 6.295 | -26,7 |
| 8. Equity | 182.561 | 177.562 | 2,8 |
| Total liabilities and equity | 469.582 | 439.829 | 6,8 |

Total assets had increased once again as at 31 March 2010, rising by 6.8% from EUR 439,829 thousand in the previous year to EUR 469,582 thousand. This rise was a result of the increase in non-current amounts due to customers on the equity and liabilities side of the balance sheet. In the first quarter of 2010, Baader Bank AG issued a further EUR 2,500 thousand in *Schuldschein* note loans. On the assets side of the balance sheet, liquidity is now increasingly

invested in available-for-sale financial instruments. This also explains the increase in this balance sheet item. The decrease in the equity-accounted investments item is due in particular to partial sales of the fund units included there.

The Group's shareholders' equity amounted to EUR 82,561 thousand as of 31 March 2010 (31 December 2009: EUR 77,562 thousand), resulting in an equity ratio of 38.9%. The change in equity mainly corresponds to comprehensive income for the first three months of the 2010 fiscal year in the amount of EUR 4,631 thousand.

| | | | | | | |

Baader Bank AG saw a strong start to the 2010 financial year. For instance, in the first three months of the current year the Group generated earnings after taxes of EUR 3,829 thousand as against EUR 2,084 thousand in the same period of the previous year. Profit from ordinary activities was

more than doubled to EUR 5,796 thousand in the first quarter of 2010 (Q1 2009: EUR 2,624 thousand).

This development is attributable primarily to the return to an increase in share turnover on the German stock exchanges. In the first quarter of 2010, share turnover on all German stock exchanges rose 17.5% to EUR 321.6 billion. In the previous year, share turnover here had almost halved in total (-47.1%). Baader Bank AG benefited accordingly from this turnaround. This development can be seen clearly in the increase of 15.0% in net fee and commission income and of 17.7% in net trading income.

Administrative expenses increased only slightly overall in the first three months of the 2010 financial year as compared to the previous year, rising by EUR 466 thousand or 2.1% to EUR 22,598 thousand. Of this amount, EUR 270 thousand is attributable to staff costs and EUR 468 thousand to other administrative expenses. Depreciation of property and equipment and amortisation of intangible assets decreased slightly by EUR 272 thousand as against the previous year.

The number of employees in the Group was almost constant at 353 as at 31 March 2010 (31 March 2009: 352).

Basic earnings per share amount to EUR 0.08 (previous year: EUR 0.05).

Financial position

On 31 March 2010, short-term loans and advances to other banks and available-for-sale negotiable securities of EUR 357,005 thousand were offset by current liabilities of EUR 119,263 thousand. This results in a net balance sheet liquidity surplus of EUR 237,742 thousand. The Group's liquidity was guaranteed at all times during the period under review.

Outlook

Baader Bank AG is of the firm opinion that the debt crisis in several countries in the euro zone will continue to influence the capital markets in the coming months. The decisive factor here will be the extent to which the situation can be successfully contained in terms of preventing the debt crisis from spreading from Greece to other countries at risk.

As part of a new strategic step, Baader Bank AG plans to significantly strengthen the areas of capital market services and institutional agency business with shares. At the same time, an internal Group research department is to support these areas on a sustained basis for the first time. The Bank thus documents its claim to a leading position in supporting capital measures by German companies and in institutional business with German shares.

For this reason, Baader Bank AG has been working for half a year on further strengthening its area for capital market transactions in order to present small and medium-sized companies with alternative financing possibilities to traditional credit financing.

For all three areas together, Baader Bank AG will take on a total of 25 new, experienced employees by the beginning of 2011 at the latest. The objective of these measures is to position Baader Bank AG in the group of leading banks in business with German shares.

In exchange trading, it is the reform of Frankfurt floor trading which will affect Baader Bank AG's business there. As the Stock Exchange Council resolved on 1 March this year, trading of shares is to

be transferred from the trading and order routing platform Xontro to the internationally linked system Xetra. It is planned to discontinue specialist-based trading on the Frankfurter Stock Exchange with effect from 28 March 2012 at the latest. From then on, trading is to take place exclusively via the electronic reading platform Xetra, where liquidity and order execution will then be optimised with the help of intermediaries ("specialists").

Baader Bank expects that Deutsche Börse will then set higher requirements for the capital resources and IT equipment of future specialists. As a result of the resolved floor trading reform, the consolidation process among trading participants can be expected to accelerate in the near future. Within a few years, the number of trading participants is likely to decrease from just over 20 now to less than ten – a process from which Baader Bank could certainly benefit.
