Report on review of interim condensed consolidated financial statements

To the Shareholders and the Supervisory Board of Sberbank

We have reviewed the accompanying interim condensed consolidated financial statements of Sberbank (the "Bank") and its subsidiaries (together the "Group"), which comprise the interim consolidated statement of financial position as at 31 March 2016 and the related interim consolidated statement of profit or loss, interim consolidated statement of comprehensive income, interim consolidated statement of changes in equity and interim consolidated statement of cash flows for the three-month period then ended and selected explanatory notes.

Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*.

A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

1 Introduction

These interim condensed consolidated financial statements of Sberbank of Russia (Sberbank, “the Bank”) and its subsidiaries (together referred to as “the Group” or “Sberbank Group”) have been prepared in accordance with IAS 34 *Interim Financial Reporting* for the three months ended 31 March 2016. Principal subsidiaries include Russian and foreign commercial banks and other companies controlled by the Group. A list of principal subsidiaries included in these interim condensed consolidated financial statements is disclosed in Note 35.

The Bank is a public joint-stock commercial bank established in 1841 and operating in various forms since then. The Bank was incorporated and is domiciled in the Russian Federation. The Bank’s principal shareholder, the Central Bank of the Russian Federation (“Bank of Russia”), owns 52.3% of ordinary shares or 50.0% plus 1 share of the issued and outstanding shares as at 31 March 2016 (31 December 2015: 52.3% of ordinary shares or 50.0% plus 1 share of the issued and outstanding shares).

As at 31 March 2016 the Supervisory Board of the Bank is headed by Sergey M. Ignatiev, Chairman of the Bank of Russia in the period of 2002-2013. The Supervisory Board of the Bank includes representatives from both the Bank’s principal shareholder and other shareholders as well as independent directors.

The Bank operates under a general banking license issued by the Bank of Russia since 1991. In addition, the Bank holds licenses required for trading and holding securities and engaging in other securities-related activities, including acting as a broker, a dealer, a custodian, and provision of asset management services. The Bank is regulated and supervised by the Bank of Russia as a united regulator for banking and financial markets activities in the Russian Federation. The Group’s foreign banks/companies operate under the banking/companies regulatory regimes of their respective countries.

The Group’s principal business activity is corporate and retail banking. This includes, but is not limited to, deposit taking and commercial lending in freely convertible currencies, local currencies of countries where the subsidiary banks operate and in Russian Roubles, support of clients’ export/import transactions, foreign exchange, securities trading, and trading in derivative financial instruments. The Group’s operations are conducted in both Russian and international markets. As at 31 March 2016 the Group conducts its business in Russia through Sberbank with its network of 14 (31 December 2015: 16) regional head offices, 79 (31 December 2015: 78) branches and 16,221 (31 December 2015: 16,400) sub-branches, and through principal subsidiaries located in Russia such as JSC Sberbank Leasing, LLC Sberbank Capital, companies of ex-Troika Dialog Group Ltd., JSC Non-state Pension Fund of Sberbank, LLC Sberbank Factoring and Cetelem Bank LLC (former BNP Paribas Vostok LLC). From 1 January 2016 Vostochno-Sibirsky Regional head office was reorganized by reallocation of its branch network into organizational structure of Sibirsky Regional head office whereas Severo-Kavkazsky Regional head office was reorganized by reallocation of its branch network into organizational structure of Yugo-Zapadny Regional head office. The Group carries out banking operations in Turkey, Ukraine, Belarus, Kazakhstan, Austria, Switzerland and other countries of Central and Eastern Europe and also conducts operations through a branch office in India, representative offices in Germany and China and companies of ex-Troika Dialog Group Ltd. located in the United States of America, the United Kingdom, Cyprus and certain other jurisdictions.

The actual headcount of the Group’s employees as at 31 March 2016 was 327,818 (31 December 2015: 330,677).

Registered address and place of business. The Bank’s registered address is: Vavilova str., 19, Moscow, Russian Federation.

Presentation currency. These interim condensed consolidated financial statements are presented in Russian Roubles (“RR”). All amounts are expressed in RR billions unless otherwise stated.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

1 Introduction (Continued)

At 31 March 2016 the principal rates of exchange used for translating each entity's functional currency into the Group's presentation currency and foreign currency monetary balances were as follows:

	/RR	/UAH	/BYR	/KZT	/EUR	/CHF	/TRY
RR/	1.000	0.388	297.821	5.069	0.013	0.014	0.042
USD/	67.608	26.265	20,134.973	342.669	0.883	0.964	2.832
EUR/	76.539	29.735	22,794.813	387.936	1.000	1.091	3.206

At 31 December 2015 the principal rates of exchange used for translating each entity's functional currency into the Group's presentation currency and foreign currency monetary balances were as follows:

	/RR	/UAH	/BYR	/KZT	/EUR	/CHF	/TRY
RR/	1.000	0.328	256.755	4.648	0.013	0.014	0.040
USD/	72.883	23.925	18,713.014	338.729	0.914	0.991	2.906
EUR/	79.697	26.162	20,462.673	370.400	1.000	1.084	3.178

2 Operating Environment of the Group

The Group conducts its business in the Russian Federation, Turkey, Belarus, Kazakhstan, Ukraine, Austria, Switzerland and other countries of Central and Eastern Europe, the United States of America and the United Kingdom.

Russian Federation. The most part of the Group operations is conducted in the Russian Federation.

The Russian economy continues to show recessionary trend. The first quarter of 2016 economic indicators reflect maintaining the main negative factors for economic development. The duration and depth of the recession were largely caused by such factors as unfavorable raw material market conjuncture, particularly, significant drop in oil prices, the effect of international sectoral sanctions against Russia, reduction in investments and decline in the household consumption.

At the end of the first quarter of 2016 GDP declined by 1.2%¹ year-on-year. The economy contraction continues during seven consecutive quarters since the third quarter of 2014, and the level of the Russian economy GDP by the end of the first quarter of 2016 matches to the level reached in 2011.

The industrial output decreased by 0.6%¹ in the first quarter of 2016 year-on-year.

Retail sales decreased by 5.4%¹ in the first quarter of 2016 year-on-year. The grounds of the deepening recession in retail are: continuing fall in the real disposable income (by 3.9%¹ in the first quarter of 2016 year-on-year), shift to the savings pattern of behavior by the public and contraction of the retail lending (by 1.2%¹ in the first quarter of 2016, adjusted for the foreign exchange revaluation). The public's propensity to save was evidenced by the growth of the share of income allocated to savings which by March 2016 reached 15.7%² of disposable income, recording a maximum since 2011. At the same time, a period of substantial growth of retail deposits ended - the last ones were down by 3.0%³ in the first quarter of 2016, also being affected by the dynamics of exchange rates. The consumer confidence index, which reflects the total consumer expectations of the public, in the first quarter of 2016 continued to deteriorate and decreased by 4 percentage points, making -30%¹ quarter-on-quarter.

In the first quarter of 2016, consumer price inflation slowed down rapidly to 2.1%¹, which is 3.5 times lower than a year ago: 7.4%¹. Annual consumer inflation slowed from 12.9%¹ in December 2015 to 7.3%¹ in March 2016. The trend to lower inflation increases the likelihood of the Bank of Russia key rate cut in the coming months. However, during the first quarter of 2016 the Bank of Russia key rate remained at 11%.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

2 Operating Environment of the Group (continued)

During the first quarter of 2016 the price per barrel of Urals oil fluctuated in the range of US 25-40 dollars per barrel, reaching a local minimum at US 24.5 dollars per barrel in January 2016. The dynamics of the Russian rouble exchange rate during the first quarter of 2016 was determined by the dynamics of oil prices and the reduction of geopolitical risk. By the end of January 2016 the exchange rate reached 82 Russian roubles per the US dollar after the drop in oil prices. However, the gradual recovery in oil prices in February – March of 2016 was followed by the strengthening of the Russian rouble exchange rate. In March 2016 the positive factors were supported by the ease of tensions over the situation in Syria. By the end of March 2016, the Russian rouble appreciated to 67 Russian roubles per US dollar, i.e. by 8.2% in the first quarter of 2016 as a whole.

In the first quarter of 2016 the capital outflow amounted to USD 7 billion³. The first quarter of 2016 was also the first quarter since the beginning of the crisis (in the third quarter of 2014) when the US dollar equivalent of the Russian foreign debt grew up by USD 0.2 billion³ - as a result of currency revaluation of liabilities.

Russia's banking sector finished the first quarter of 2016 with a profit of RR 109 billion³ compared to RR 6 billion³ in the first quarter of 2015. Taking into account profit earned by the Bank, the rest of the Russian banking system earned profit of RR 9 billion³. In the first quarter of 2016 assets of the Russian banking system adjusted for the foreign exchange revaluation increased by 0.2%³ (after the growth of 1.6%³ in the fourth quarter of 2015). The loan portfolio of the banking sector adjusted for the foreign exchange revaluation declined by 0.2%³ in the first quarter of 2016 (after the growth of 0.5%³ in the fourth quarter of 2015).

In the first quarter of 2016 deposits of individuals decreased by 0.9%³ (adjusted for the foreign exchange revaluation), while deposits and current accounts of corporate clients increased by 0.5%³ (adjusted for the foreign exchange revaluation).

During the first quarter of 2016 the share of overdue loans in the corporate loan portfolio grew up from 6.2%³ to 6.6%³, and in the retail loan portfolio - from 8.1%³ to 8.4%³. Banks continue to allocate substantial amounts to provisions for loan impairment. Additional provision charge for loan impairment recognized by the banks in the first quarter of 2016 amounted to RR 147 billion³ increasing total provisions by 2.7%³. Dependence of the Russian banking sector on the borrowings from the Bank of Russia was lowering: its share in the total amount of liabilities and equity of the Russian banking system decreased from 6.5%³ to 5.0%³ (a decline of RR 1.3 trillion³ in absolute terms) during the first quarter of 2016.

At the same time the situation in the financial markets has improved considerably during the first quarter of 2016. During the first quarter 2016 RTS index grew by 15.7% and MICEX index grew by 6.2%. Rouble capitalization of the Bank increased by 8.5% in the first quarter of 2016.

Other jurisdictions. In addition to Russia the Group conducts operations in Belarus, Kazakhstan, Ukraine, Central and Eastern Europe (Austria, Czech Republic, Slovakia, Bosnia and Herzegovina, Slovenia, Serbia, Hungary, Croatia), Turkey, Switzerland and some other countries. Tough economic and liquidity situation in many countries led to a decrease or insignificant growth of GDP followed by shrinking in consumption as well as in investment activities. The primary goals of the local regulators included supporting financial stability, management of GDP deficit and inflation level regulation.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

2 Operating Environment of the Group (continued)

During the period ended 31 March 2016 political and economic situation in Ukraine remained unstable. Although National Bank of Ukraine (the “NBU”) forecasts economic recovery as well as slight GDP growth during 2016, a significant negative balance of payments and a reduction in foreign currency reserves take place. From 1 January 2016 and up to 31 March 2016 the Ukrainian Hryvnia (the “UAH”) depreciated against major foreign currencies by approximately 9.0% calculated based on the NBU exchange rate of UAH to US Dollar (from 1 January 2015 to 31 December 2015: 52.0%). The NBU continues to extend previously imposed restrictions on purchase of foreign currencies, cross border settlements (including payment of dividends), and also mandated obligatory conversion of foreign currency proceeds into UAH. As at 31 March 2016, the Group’s exposure to Ukrainian risk amounted to approximately 0.3% of total consolidated assets (31 December 2015: 0.4%). The exposure consists of net assets of and the Group funding to the Group’s Ukrainian subsidiaries, as well as investments in equity and debt instruments issued by and loans to the Ukrainian government and corporate clients. Management is monitoring these developments in the current environment and taking actions where appropriate. These and any further possible negative developments in Ukraine could adversely impact results and financial position of the Group in a manner not currently determinable.

3 Basis of Preparation

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* and should be read in conjunction with the annual consolidated financial statements of the Group as at 31 December 2015.

These interim condensed consolidated financial statements do not contain all the explanatory notes as required for a full set of consolidated financial statements.

4 Accounting Policies, Critical Accounting Estimates and Judgements, Adoption of Revised Standards, and Reclassifications

The accounting policies and methods of computation applied in the preparation of these interim condensed consolidated financial statements are consistent with those disclosed in the annual consolidated financial statements of the Group for the year ended 31 December 2015, except for the changes introduced due to implementation of new and/or revised standards and interpretations as at 1 January 2016 or as at the date indicated, noted below:

IFRS 14 Regulatory Deferral Accounts (issued in January 2014 and effective for annual periods beginning on or after 1 January 2016). IFRS 14 permits first-time adopters to continue to recognize amounts related to rate regulation in accordance with their previous GAAP requirements when they adopt IFRS. However, to enhance comparability with entities that already apply IFRS and do not recognize such amounts, the standard requires that the effect of rate regulation must be presented separately from other items.

Accounting for Acquisitions of Interests - Amendments to IFRS 11 Joint Arrangements (issued on 6 May 2014 and effective for the periods beginning on or after 1 January 2016). The amendments to IFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 *Business Combinations* principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

4 Accounting Policies, Critical Accounting Estimates and Judgements, Adoption of Revised Standards, and Reclassifications (Continued)

Clarification of Acceptable Methods of Depreciation and Amortisation - Amendments to IAS 16 and IAS 38 (issued on 12 May 2014 and effective for the periods beginning on or after 1 January 2016). The amendments clarify the principle in IAS 16 and IAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets.

Agriculture: Bearer plants - Amendments to IAS 16 and IAS 41 (issued on 30 June 2014 and effective for annual periods beginning 1 January 2016). The amendments change the financial reporting for bearer plants, such as grape vines, rubber trees and oil palms, which now should be accounted for in the same way as property, plant and equipment because their operation is similar to that of manufacturing. Consequently, the amendments include them within the scope of IAS 16, instead of IAS 41. The produce growing on bearer plants will remain within the scope of IAS 41.

Equity Method in Separate Financial Statements - Amendments to IAS 27 (issued on 12 August 2014 and effective for annual periods beginning on or after 1 January 2016). The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying IFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. First-time adopters of IFRS electing to use the equity method in its separate financial statements will be required to apply this method from the date of transition to IFRS.

Disclosure Initiative Amendments to IAS 1 (issued in December 2014 and effective for annual periods on or after 1 January 2016). The amendments to IAS 1 clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1,
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated,
- That entities have flexibility as to the order in which they present the notes to financial statements,
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI.

Investment Entities: Applying the Consolidation Exception Amendment to IFRS 10, IFRS 12 and IAS 28 (These amendments must be applied retrospectively. Issued in December 2014 and effective for annual periods on or after 1 January 2016).

The amendments address issues that have arisen in applying the investment entities exception under IFRS 10. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value.

Furthermore, the amendments to IFRS 10 clarify that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. The amendments to IAS 28 allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

4 Accounting Policies, Critical Accounting Estimates and Judgements, Adoption of Revised Standards, and Reclassifications (Continued)

Improvements to IFRSs 2012-2014 Cycle. These improvements were issued on 25 September 2014 and effective on or after 1 January 2016. They include:

- *IFRS 5 Non-current Assets Held for Sale and Discontinued Operations – changes in methods of disposal.* Assets (or disposal groups) are generally disposed of either through sale or through distribution to owners. The amendment to IFRS 5 clarifies that changing from one of these disposal methods to the other should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is therefore no interruption of the application of the requirements in IFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification. The amendment must be applied prospectively to changes in methods of disposal that occur in annual periods beginning on or after 1 January 2016.
- *IFRS 7 Financial Instruments: Disclosures – servicing contracts.* IFRS 7 requires an entity to provide disclosures for any continuing involvement in a transferred asset that is derecognised in its entirety. The Board was asked whether servicing contracts constitute continuing involvement for the purposes of applying these disclosure requirements. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance for continuing involvement in paragraphs IFRS 7.B30 and IFRS 7.42C in order to assess whether the disclosures are required. The amendment must be applied for annual periods beginning on or after 1 January 2016. The amendment is to be applied such that the assessment of which servicing contracts constitute continuing involvement will need to be done retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendments.
- *IFRS 7 Financial Instruments: Disclosures – applicability of the offsetting disclosures to condensed interim financial statements.* In December 2011, IFRS 7 was amended to add guidance on offsetting of financial assets and financial liabilities. In the effective date and transition for that amendment IFRS 7 states that “An entity shall apply those amendments for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods”. The interim disclosure standard, IAS 34, does not reflect this requirement, however, and it is not clear whether those disclosures are required in the condensed interim financial report. The amendment removes the phrase ‘and interim periods within those annual periods’, clarifying that these IFRS 7 disclosures are not required in the condensed interim financial report. The amendment must be applied retrospectively for annual periods beginning on or after 1 January 2016.
- *IAS 19 Employee Benefits – regional market issue regarding discount rate.* The amendment to IAS 19 clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. The amendment must be applied for annual periods beginning on or after 1 January 2016.
- *IAS 34 Interim Financial Reporting – disclosure of information ‘elsewhere in the interim financial report’.* The amendment states that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report). The Board specified that the other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. If users do not have access to the other information in this manner, then the interim financial report is incomplete. The amendment should be applied retrospectively for annual periods beginning on or after 1 January 2016.

The above mentioned amended standards effective for the Group from 1 January 2016 did not have a material impact on the accounting policies, financial position or performance of the Group.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

4 Accounting Policies, Critical Accounting Estimates and Judgements, Adoption of Revised Standards, and Reclassifications (Continued)

Management's estimates and judgements. Judgements and critical estimates made by Management in the process of applying the accounting policies were consistent with those disclosed in the annual consolidated financial statements for the year ended 31 December 2015. Management has not identified new areas of judgement or critical estimates.

Impairment provision on credit risk. Starting from the first quarter 2016 the Group introduced several updates in the provision for loan impairment methodology:

- based on the accumulated statistics on the default loans recovery and on the proceeds from collateral sale the Group has refined the approach for collective loans provisioning;
- in respect of the retail and some of the corporate loan portfolios instead of the previously used overdue loans migration models the Group now uses PD models duly adjusted to be in compliance with incurred loss model.

Developments in the methodology for loan impairment resulted in RR 26.1 billion provision release recognized in the statement of profit or loss within net provision charge for impairment of debt financial assets for the three months ended 31 March 2016.

Also starting from the first quarter 2016 the Group introduced changes in the methodology for provisioning of credit related commitments which made it similar to provisioning methodology for loan impairment. Implementation of the improved methodology resulted in the additional provision charge of RR 6.9 billion recognized in the statement of profit or loss within net (charge for) / recovery of other provisions for the three months ended 31 March 2016.

Changes in presentation and reclassifications. Starting from the first quarter 2016 the Group improved presentation of Investments in associates. The effect of changes on the consolidated statement of financial position as at 31 December 2015 is as follows:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	As previously reported	Reclassification	As reclassified
Assets			
Other financial assets	664.5	6.5	671.0
Other non-financial assets	300.3	(6.5)	293.8

Following the improved disclosure of operations on insurance and pension fund activities, the presentation of the comparative figures has been adjusted to be consistent with the new presentation.

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	As previously reported	Reclassification	As reclassified
Fee and commission income	83.9	(0.5)	83.4
Net income from insurance and pension fund operations	0.8	(0.8)	—
Net premium from insurance and pension fund operations	—	9.3	9.3
Net claims, benefits and acquisition costs on insurance and pension fund operations	—	(8.0)	(8.0)

The effect of reclassifications mentioned above on the disclosure of the consolidated statement of cash flows for the three months ended 31 March 2015 is as follows:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	As previously reported	Reclassification	As reclassified
Cash flows from operating activities before changes in operating assets and liabilities			
Fees and commissions received	85.1	(0.5)	84.6
Insurance premiums received	8.2	0.5	8.7

Less: Provision for loan impairment	(321.0)	(875.5)	(1,196.5)
Total loans and advances to customers net of provision for loan impairment	18,165.5	562.3	18,727.8

For the purposes of these interim condensed consolidated financial statements a loan is considered past due when the borrower fails to make any payment due under the loan agreement at the reporting date. In this case the aggregate amount of all amounts due from borrower under the respective loan agreement including accrued interest and commissions is recognized as past due.

Commercial lending to legal entities comprises corporate loans, loans to individual entrepreneurs, federal bodies and municipal authorities of the Russian Federation. Loans are granted for current needs (working capital financing, acquisition of movable and immovable property), portfolio investments, expansion and consolidation of business, etc. Majority of commercial loans are provided for periods up to 5 years depending on the borrowers' risk assessment. Commercial lending also includes overdraft lending and lending for export-import transactions. The repayment source is cash flow from current production and financial activities of the borrower.

Specialized lending to legal entities includes investment and construction project financing and also developers' financing. As a rule, loan terms are linked to payback periods of investment and construction projects, contract execution periods and exceed the terms of commercial loans to legal entities. The principal and interest may be repaid from cash flows generated by the investment project at the stage of its commercial operation.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

7 Loans and Advances to Customers (Continued)

Consumer and other individual loans comprise loans to individuals other than housing acquisition, construction and repair of real estate as well as car loans and credit cards and overdrafts. These loans include loans for current needs.

Mortgage loans to individuals include loans for acquisition, construction and reconstruction of real estate. These loans are mostly long-term and are collateralized by real estate.

Credit cards and overdrafts represent revolving credit lines. These loans are considered a comfortable instrument for customers as a reserve source of funds in case of need available everywhere and anytime. Credit card loans are provided up to 3 years period. Interest rates for such loans are higher than for consumer loans as they carry higher risks for the Group.

Car loans to individuals include loans for purchasing a car or other vehicle. Car loans are provided for up to 5 years periods.

Liabilities of the disposal groups		
- liabilities of the disposal groups	180.5	185.9
Total liabilities of the disposal groups	180.5	185.9

Non-current assets held for sale represent non-current assets held for sale by the subsidiaries of the Group.

On 17 December 2015, Management announced a plan to dispose of the subsidiary Sberbank Slovensko a.s. based in Slovakia. Based on the signed agreement, Penta Investments Group will become the new owner of 99.5% of Sberbank Slovensko a.s. shares. The decision to sell Sberbank Slovensko a.s. is consistent with the Group's strategic review of the markets in which Sberbank Europe AG operates. The closing of the transaction is subject to approval of the Antimonopoly Office of the Slovak Republic and the European Central Bank and is planned until mid of 2016. Confidentiality has been agreed concerning the purchase price. As at 31 March 2016, Sberbank Slovensko a.s. was classified as non-current assets held for sale.

On 12 October 2015 following an open tender the Group signed an agreement to sell its stake in NP JSC Krasnaya Polyana representing 96.914% of the company share capital. The transaction price is RR 35.0 billion. According to the agreed payment schedule the price and amount of interest accrued on outstanding debt is payable in several tranches through 31 December 2022. In May 2016 transfer of ownership on the shares was completed following the fulfillment of conditions agreed by the parties to the contract. As of the date of the transfer the Group has received RR 8.0 billion from the buyer.

Total loan participation notes issued under the MTN programme of Sberbank						535.5		607.0	

During the three months ended 31 March 2016 the Group repurchased a portion of the loan participation notes issued under the MTN programme from the market. The gain from early redemption of these notes amounted to RR 0.1 billion and is presented within other net operating income in the interim consolidated statement of profit or loss (during the three months ended 31 March 2015: RR 0.9 billion).

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

15 Debt Securities in Issue (Continued)

In December 2014 the Group arranged a securitization transaction through a special purpose entity under which three tranches of mortgage-backed amortizing notes with nominal value of RR 11.1 billion were issued. The amortised cost of these securities as at 31 March 2016 amounted to RR 6.8 billion (31 December 2015: RR 7.2 billion). These securities were collateralized with portfolio mortgage loans to individuals secured by residential properties (loans were not derecognized by the Group) with amortized cost of RR 7.8 billion as at 31 March 2016 (31 December 2015: RR 8.5 billion). The first tranche with the nominal value of RR 6.7 billion has the coupon rate of 9.0% p.a.; the second tranche with the nominal value of RR 3.3 billion has the coupon rate of 3.0% p.a.; and the third junior tranche with the nominal value of RR 1.1 billion has a floating coupon rate. The first and the second tranches have equal seniority. The bonds final original maturity is December 2046, however, the early redemption option is available to the Group based on terms and volumes of repayment of securitized mortgage loans by individuals. As the third tranche was purchased by the Group, thus, it is eliminated in these financial statements.

16 Other Borrowed Funds

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)	31 December 2015
Trade finance deals	335.1	398.0
Total other borrowed funds	335.1	398.0

As at 31 March 2016 trade finance deals were accounted for at amortised cost of RR 335.1 billion (31 December 2015: RR 398.0 billion), had interest rates varying from 0.1% to 15.3% p.a. (31 December 2015: from 0.1% to 15.0% p.a.) and maturity dates from April 2016 to March 2036 (31 December 2015: from January 2016 to June 2027).

Changes on run-off contracts	1.5	(0.3)	0.4	1.6
Provision as at 31 March 2015	79.1	37.3	10.1	126.5

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

19 Subordinated Debt

	31 March 2016 (unaudited)	31 December 2015
<i>in billions of Russian Roubles</i>		
Subordinated debt received from the Bank of Russia	512.5	504.5
Subordinated debt received under the MTN programme of Sberbank	230.8	259.0
Other subordinated debt	40.5	43.0
Total subordinated debt	783.8	806.5

Description of the subordinated loans received by the Group from the Bank of Russia is presented in the table below:

Drawdown date	Interest rate repricing date	Currency	Nominal value in currency of issue, in millions of currency	Contractual interest rate, % p.a.	31 March 2016 (unaudited)		31 December 2015	
					Carrying value, in billions of RR	Effective interest rate, % p.a.	Carrying value, in billions of RR	Effective interest rate, % p.a.
16 December 2008	31 December 2019	RUB	300,000	6.5	308.9	6.5	304.1	6.5
18 June 2014	31 December 2019	RUB	200,000	6.5	203.6	6.5	200.4	6.5
Total subordinated debt received from the Bank of Russia					512.5		504.5	

In March 2015, following the amendments to the Federal Law of the Russian Federation “On additional measures for supporting the financial system of the Russian Federation” terms and conditions of the subordinated loans received from the Bank of Russia in the total nominal value of RR 500 billion were modified. As it was allowed by the Federal Law the Bank elected to prolong these subordinated loans for 50 years from the date of the original draw down with an ability to unilaterally (without consent from Bank of Russia) roll over this subordinated facility at its maturity. The subordinated loan facility bears an interest rate of 6.5% p.a. Based on the terms and conditions of the modified subordinated loan the interest rate can be reset after 31 December 2019.

The Group considers that the terms of initial financial instruments previously reported by the Group were not significantly modified. On the repricing date the Group will reassess its judgement provided the conditions of the subordinated loans are substantially revised.

Description of the subordinated loans received under the MTN programme of Sberbank is presented in the table below:

Issue	Drawdown date	Maturity date	Currency	Nominal value in currency of issue, in millions of currency	Contractual interest rate, % p.a.	31 March 2016 (unaudited)		31 December 2015	
						Carrying value, in billions of RR	Effective interest rate, % p.a.	Carrying value, in billions of RR	Effective interest rate, % p.a.
Series 12	29 October 2012	29 October 2022	USD	2,000	5.1	97.1	5.2	113.7	5.2
Series 16	23 May 2013	23 May 2023	USD	1,000	5.3	67.8	5.4	72.3	5.4
Series 17	26 February 2014	26 February 2024	USD	1,000	5.5	65.9	5.6	73.0	5.6
Total subordinated debt received under the MTN programme of Sberbank						230.8		259.0	

During the three months ended 31 March 2016 the Group repurchased a portion of the subordinated loan participation notes issued under the MTN programme from the market. The gain from early redemption of these notes amounted to RR 0.5 billion and is presented within other net operating income in the interim consolidated statement of profit or loss (during the three months ended 31 March 2015: RR 0.05 billion).

In the event of the Bank’s liquidation the holders of these debts would be subordinated to all other creditors.

25 Operating Expenses

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Three months ended 31 March	
	2016	2015
Staff costs	86.1	86.0
Depreciation of premises and equipment	16.0	15.4
Operating lease expenses	7.3	6.1
Administrative expenses	7.2	7.0
Amortization of intangible assets	6.2	4.0
Repairs and maintenance of premises and equipment	6.0	6.6
Taxes other than on income	5.4	5.1
Telecommunication expenses	3.9	3.2
Advertising and marketing services	1.3	1.8
Consulting and assurance services	1.2	1.2
Other	3.2	3.3
Total operating expenses	143.8	139.7

26 Earnings per Share

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Bank by the weighted average number of ordinary shares in issue during the period, excluding treasury shares. The Bank has no dilutive potential ordinary shares; therefore the diluted earnings per share equal to the basic earnings per share.

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Three months ended 31 March	
	2016	2015
Profit for the period attributable to the shareholders of the Bank	118.0	30.6
Profit attributable to the ordinary shareholders of the Bank	118.0	30.6
Weighted average number of ordinary shares in issue (billions)	21.5	21.6
Earnings per ordinary share, basic and diluted (expressed in RR per share)	5.49	1.42

27 Segment Analysis

For the purposes of management the Group is divided into operating segments of activity – Central head office, 14 regional head offices and subsidiaries – which are defined on the basis of organizational structure of the Group and geographical areas. The principal activity of all operating segments is banking operations. For the purposes of presentation in these interim condensed consolidated financial statements the operating segments are aggregated in the following reportable segments:

- **Moscow, including:**
 - Central head office of the Group,
 - Regional head office of Moscow,
 - Subsidiaries of the Group located in the region.
- **Central and Northern regions of European part of Russia, including:**

Regional head offices:

 - Severny – Yaroslavl,
 - Severo-Zapadny – Saint-Petersburg,
 - Tsentralno-Chernozemny – Voronezh,
 - Srednerussky – Moscow;

Subsidiaries of the Group located in the region.
- **Volga region and South of European part of Russia, including:**

Regional head offices:

 - Volgo-Vyatsky – Nizhniy Novgorod,
 - Povolzhsky – Samara,
 - Yugo-Zapadny – Rostov-on-Don;

Subsidiaries of the Group located in the region.
- **Ural, Siberia and Far East of Russia, including:**

Regional head offices:

 - Zapadno-Uralsky – Perm,
 - Uralsky – Ekaterinburg,
 - Sibirsky – Novosibirsk,
 - Zapadno-Sibirsky – Tumen,
 - Dalnevostochny – Khabarovsk,
 - Baikalsky – Irkutsk;

Subsidiaries of the Group located in the region.
- **Other countries, including:**
 - Subsidiaries located in Turkey,
 - Subsidiaries located in Ukraine, Kazakhstan, Belarus,
 - Subsidiaries located in Austria and Switzerland,
 - Subsidiaries of Sberbank Europe AG located in Central and Eastern Europe,
 - Companies of ex-Troika Dialog Group Ltd. located in the USA, the United Kingdom, Cyprus and certain other jurisdictions,
 - A branch office in India.

The Management of the Group analyses operating results of every segment of activity for the purposes of making decision about allocation of resources and assessment of segments' business results. The segments' reporting and operating results which are provided to the Management of the Group for analysis are prepared under Russian accounting standards, except the segments' reporting of the subsidiaries which is prepared under International Financial Reporting Standards.

Intersegment operations are performed on the basis of internal transfer pricing rates which are established, approved and regularly revised by the Management of the Group.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

27 Segment Analysis (Continued)

The subsidiaries' activity is controlled by the Group integrally.

Segment reporting of the Group's assets and liabilities as at 31 March 2016 is as follows:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Moscow	Central and Northern regions of European part of Russia	Volga region and South of European part of Russia	Ural, Siberia and Far East of Russia	Other countries	Total
Total assets	12,266.9	3,163.9	2,669.0	3,658.3	4,794.9	26,553.0

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

27 Segment Analysis (Continued)

Reconciliation of profit before tax for the reportable segments with the Group's profit before tax under IFRS for the three months ended 31 March 2016 and 31 March 2015 is as follows:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Three months ended	
	31 March	
	2016	2015
Total segments result	109.2	23.7
Adjustment to staff expenses accrued (bonuses, annual leave, pension liabilities)	(1.0)	(6.4)
Adjustment of provision for impairment of debt financial assets	43.5	(7.3)
Accounting for derivatives at fair value	2.0	12.6
Accounting for loans by effective rate method	3.3	1.4
Write off of low value assets	—	0.2
Adjustment of other provisions	3.2	9.2
Adjustment of depreciation and initial cost or revalued amount of premises and equipment	(1.7)	0.9
Accounting for financial contracts with embedded derivatives	0.3	0.9
Accounting for financing by the effective rate method	(0.5)	0.3
Accrual of expenses on customer loyalty programs	1.0	(1.1)
Currency translation of investments in subsidiaries and associates	—	7.0
Adjustment for credit related commitments provision	(17.8)	3.2
Adjustment for legal claims provision	—	(0.3)
Recognition of deferred commission income	1.1	0.2
Reclassification of securities between portfolios	6.4	5.5
Accounting for mortgage loans securitisation	—	(0.1)
Effect of initial recognition of financial instruments at fair value	(0.2)	—
Other	1.1	—
The Group's total assets/liabilities under IFRS	149.9	49.9

The differences shown above arise from classification variances as well as different accounting policies.

Adjustment of provisions is related to the difference between estimation methodology applied in statutory accounting records used as a basis for management reporting and estimation methodology according to IFRS.

Differences arising on securities' classification relate to gains/(losses) on revaluation of securities designated as at fair value through profit or loss in IFRS reporting but classified as available-for-sale in statutory accounting records.

The sum of the line Accounting for derivatives at fair value includes adjustments to reflect recognition of embedded derivatives in the consolidated statement of financial position, the creation of CVA/DVA and the bid/offer provisions, as the necessary components of fair value.

For the three months ended 31 March 2016 the Group's revenues from customers in the Russian Federation amounted to RR 695.6 billion (for the three months ended 31 March 2015: RR 599.9 billion); revenues from customers in all foreign countries from which the Group derives revenues amounted to RR 103.6 billion (for the three months ended 31 March 2015: RR 96.3 billion).

No revenue from transactions with a single external customer or counterparty amounted to 10.0% or more of the Group's total revenue during the three months and the three months ended 31 March 2016 and 31 March 2015.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

28 Financial Risk Management

The risk management function within the Group is carried out in respect of major types of risks: credit, market, liquidity and operational risks. Market risk includes interest rate risk, equity risk and currency risk. The Group's risk management policies are designed to identify and analyze these risks, to set appropriate risk limits and controls, and to monitor the risks and limits. The operational risk management functions are intended to ensure proper functioning of internal policies and procedures to minimize operational risk.

The Group's risk management policies and procedures are consistent with those disclosed in the annual consolidated financial statements of the Group for the year ended 31 December 2015.

Currency risk. Currency risk results from fluctuations in the prevailing foreign currency exchange rates. The Group is exposed to foreign exchange risk on open positions, mainly US dollar/Russian Rouble and Euro/Russian Rouble exchange rate fluctuations.

Foreign exchange risk on forward and future contracts is represented by their discounted positions. Foreign exchange options are disclosed in the amount that reflects theoretical sensitivity of their fair value to reasonable change in exchange rates. Commodity options are shown at their fair value in relative settlement currency. Equity instruments are classified based on the country of origin of issuer.

The table below summarizes the Group's exposure to foreign exchange risk in respect of financial assets, liabilities and derivatives as at 31 March 2016.

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Russian Roubles	US Dollars	Euro	Turkish Lyra	Other	Total

The Group provides loans and advances to customers in foreign currency. Fluctuations of foreign currency exchange rates may negatively affect the ability of borrowers to repay loans, which will in turn increase the probability of loan loss.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

28 Financial Risk Management (Continued)

Liquidity Risk. Liquidity risk is defined as the risk of mismatch between the maturities of assets and liabilities. The Group is exposed to daily calls on its available cash resources from interbank overnight deposits, customer's current accounts, term deposits, loan drawdowns, guarantees and from margin and other calls on cash settled derivative instruments.

Principles that are used to analyze liquidity gap presentation and manage the Group liquidity risk management are based on the Bank's of Russia prudential initiatives and the Bank's practice:

- cash and cash equivalents represent highly liquid assets and are classified as "On demand and less than 1 month";
- trading securities, securities designated as at fair value through profit or loss and highly liquid portion of investment securities available-for-sale are considered to be liquid assets as these securities could be easily converted into cash within short period of time. Such financial instruments are disclosed in gap analysis table as "on demand and less than 1 month";
- investment securities available-for-sale which are less liquid are disclosed according to remaining contractual maturities (for debt instruments) or as "No stated maturity / overdue" (for equities);
- investment securities held-to-maturity including those pledged under repurchase agreements are classified based on the remaining contractual maturities;
- highly liquid portion of securities pledged under repurchase agreements is disclosed based on the remaining maturities of repurchase agreements;
- loans and advances to customers, amounts due from banks, other assets, debt securities in issue, amounts due to banks, other borrowed funds and other liabilities are included into gap analysis table based on remaining contractual maturities (for loans and advances to customers "No stated maturity / overdue" category represents only actual payments which were overdue);
- customer deposits aren't disclosed as "On demand and less than 1 month" although customers have an opportunity to withdraw money from any account, including term deposits, before maturity date, losing the right on accrued interest. Customer deposits diversification by number and type of depositors and the past experience of the Group indicate that such accounts and deposits provide a long-term and stable source of funding, and as a result in the gap analysis table they are allocated on the basis of expected time of funds outflow which based on statistical data accumulated by the Group during the previous periods and assumptions regarding the "permanent" part of current account balances.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

29 Credit Related Commitments

The primary purpose of credit related commitments instruments is to ensure that funds are available to a customer when required. Guarantees and standby letters of credit, which represent irrevocable assurances that the Group will make payments in the event that a customer can not meet the obligations to third parties, carry the same credit risk as loans. Documentary and commercial letters of credit, which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralized by the underlying shipments of goods to which they relate or cash deposits and therefore carry less risk than direct lending.

Commitments to extend credit represent unused portions of authorizations to extend credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to a loss equal to the total amount of unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group monitors the maturities of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

Outstanding credit related commitments are as follows:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)	31 December 2015
Guarantees issued	1,746.3	1,921.2
Commitments to extend credit	1,606.4	1,762.8
Undrawn credit lines	1,105.5	1,136.6
Export letters of credit	376.2	345.2
Import letters of credit and letters of credit for domestic settlements	186.7	189.4
Total credit related commitments before provision	5,021.1	5,355.2
Less provision	(19.2)	(5.0)
Total credit related commitments after provision	5,001.9	5,350.2

As at 31 March 2016 included in Due to corporate customers are deposits of RR 109.6 billion (31 December 2015: RR 116.2 billion) held as collateral for irrevocable commitments under import letters of credit. Refer to Note 14.

The total outstanding contractual amount of undrawn credit lines, letters of credit and guarantees does not necessarily represent future cash payments, as these financial instruments may expire or terminate without any payments being made.

30 Fair Value Disclosures

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Other borrowed funds	—	396.0	—	396.0
Subordinated debt	231.0	545.7	—	776.7
Total liabilities for which fair values are disclosed	837.7	5,233.8	17,229.0	23,300.5

Level 2 includes debt securities of first-class borrowers and derivative financial instruments that are not actively traded on the market. Fair value of these financial instruments was calculated using techniques for which all inputs which have a significant effect on the recorded fair value are observable on the active market. Financial characteristics of comparable financial instruments actively traded on the market were used as inputs for the fair valuation models.

The following describes the methodologies and assumptions used to determine fair values for financial instruments.

Derivatives

Derivatives valued using a valuation technique with market observable inputs derived from well-known market information systems are mainly interest rate swaps, currency swaps, forward foreign exchange contracts and foreign exchange option contracts. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. Option-pricing is mostly done with Black-Scholes model and for certain types of options with stochastic local volatility model. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, interest rate curves and implied volatility. In rare exceptional cases, DCF model may be applied, in case where it is impossible to obtain market data.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Trading securities, securities designated as at fair value through profit or loss and investment securities available-for-sale

Trading securities, securities designated as at fair value through profit or loss and investment securities available-for-sale valued using a valuation technique or pricing models primarily consist of unquoted equity and debt securities. These securities are valued using models which sometimes only incorporate data observable in the market and at other times use both observable and non-observable data. The non-observable inputs to the models include assumptions regarding the future financial performance of the investee, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the investee operates.

The following table shows transfers between Level 1 and Level 2 of the fair value hierarchy for financial assets measured as at fair value during the three months ended 31 March 2016:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Transfers between Level 1 and Level 2	
	From Level 1 to Level 2	From Level 2 to Level 1
Financial assets		
Trading securities	—	0.9
Securities designated as at fair value through profit or loss	1.2	0.6
Investment securities available-for-sale	2.8	0.6
Total transfers of financial assets	4.0	2.1

The following table shows transfers between Level 1 and Level 2 of the fair value hierarchy for financial assets and liabilities measured as at fair value during the year ended 31 December 2015:

<i>in billions of Russian Roubles</i>	Transfers between Level 1 and Level 2	
	From Level 1 to Level 2	From Level 2 to Level 1
Financial assets		
Trading securities	6.4	10.3
Securities designated as at fair value through profit or loss	0.8	1.1
Investment securities available-for-sale	204.7	29.9
Total transfers of financial assets	211.9	41.3
Financial liabilities		
Obligation to deliver securities	—	10.2
Total transfers of financial liabilities	—	10.2

The financial instruments are transferred from Level 2 and Level 3 to Level 1 when they become actively traded and fair values are determined using quoted prices in an active market.

The financial instruments are transferred from Level 1 to Level 2 when they ceased to be actively traded. The liquidity of the market is not sufficient to use the market quotation for its valuation and fair values are consequently obtained from valuation techniques using observable market inputs.

The financial instruments are transferred to Level 3 when they ceased to be actively traded and there is no possibility to use valuation techniques with observable market inputs.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

The following table shows a reconciliation of the opening and closing amount of Level 3 financial assets which are recorded as at fair value as at 31 March 2016:

<i>(unaudited)</i> in billions of Russian Roubles	At 31 December 2015	Total gains / (losses) reported in statement of profit or loss	Foreign currency revaluation	Sales	Transfers to Level 3	At 31 March 2016
Financial assets						
Trading securities	0.1	—	(0.1)	—	—	—
Securities designated as at fair value through profit or loss	20.2	0.1	0.1	(0.1)	—	20.3
Investment securities available-for-sale	2.8	(0.3)	(0.1)	—	0.7	3.1
Derivative financial instruments	11.4	2.0	(1.0)	(9.5)	—	2.9
Total level 3 financial assets	34.5	1.8	(1.1)	(9.6)	0.7	26.3

For the three months ended 31 March 2016 the gains in the amount of RR 0.2 billion reported in the consolidated statement of profit or loss on Level 3 financial assets were unrealized.

Total gains recognized as profit or loss on securities designated as at fair value through profit or loss which are presented in the table above are reported in the statement of profit or loss within net gains arising from securities designated as at fair value through profit or loss.

Total losses recognized as profit or loss on investment securities available-for-sale which are presented in the table above are reported in the statement of profit or loss within net gains arising from investment securities available-for-sale.

Total gains recognized as profit or loss on derivative financial instruments which are presented in the table above are reported in the statement of profit or loss within net (losses) / gains arising from trading in foreign currencies, operations with foreign currency derivatives and foreign exchange translation; within net gains / (losses) arising from operations with precious metals, precious metals derivatives and precious metals accounts translation and within net (losses) / gains arising from operations with other derivatives.

Valuation of share in a real estate company of RR 7.4 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following key assumptions: WACC and estimated capitalization rate (CapRate) which depend on forecasts on property prices. WACC as at 31 March 2016 is 15.0%, CapRate – 12%.

Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.2 billion lower / RR 0.2 billion higher. Should the capitalization rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 1.4 billion lower / RR 1.6 billion higher.

Valuation of non-voting share in a special investment fund (SIF) with investments in oil companies of RR 4.9 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following key assumptions: WACC and estimated guaranteed fixed yield on exit. Guaranteed fixed yield is not linked to the market and so has immaterial influence on the value of the financial instrument. WACC as at 31 March 2016 is 13.5%.

Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.05 billion lower / RR 0.05 billion higher.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Valuation of shares of an international payment system of RR 2.6 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on the valuation of up-front consideration due to the expected sale of shares.

Valuation of investment in a mining company of RR 4.8 billion using valuation techniques based on non-observable inputs

Fair value of investments was determined based on net assets value, while valuation of the investments in the company's operational subsidiaries was based on discounted cash flow model using the following key assumptions: WACC, operational expenses, cost of investments, price and volume of sale.

WACC of operational companies as at 31 March 2016 is 17.6%, 19.0%, 18.9% and 17.7%. Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.3 billion lower / RR 0.3 billion higher.

Valuation of investment in a packaging company of RR 1.1 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on discounted cash flow model. Valuation of the investments in the company's operational subsidiaries was based on discounted cash flow model using the following key assumptions: rate of return on equity (ROE), price and volume of sale, operational expenses, cost of investments.

The estimated value of the required return on equity (ROE) for the operating companies amounted to 23.3%. Should ROE used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of a financial instrument would be RR 0.1 billion lower / RR 0.1 billion higher.

Valuation of investment in a construction company of RR 0.3 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on discounted cash flow model. Valuation of the investments was based on discounted cash flow model using the following key assumptions: WACC, construction project revenue, operational expenses, cost of investments.

The estimated value of WACC for the operating companies amounted to 19.9%. Should WACC used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of a financial instrument would be RR 0.01 billion lower / RR 0.01 billion higher.

Valuation of share in a company with a real estate located in Moscow of RR 1.2 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following income parameters: sale price and rental rate.

Should the income parameters used by the Group in the valuation model increase / decrease by 5.0%, the carrying value of the financial instrument would be RR 0.04 billion higher / RR 0.04 billion lower.

Valuation of investments in mutual fund which main assets comprised real estate investments of RR 0.6 billion using valuation techniques based on non-observable inputs

Fair value of investments in mutual fund whose main assets comprise real estate investments are determined based on fair value of properties. Each property is revalued regularly by independent appraisers using sales comparison and income approaches. Application of market average ranges, which is considered to be a reasonably possible change of assumptions used in valuation model for calculation of fair value of such units, results in increase / decrease of fair value by RR 0.05 billion in case of application of the highest / lowest end of the range respectively.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Valuation of share in seismic exploration company of RR 0.4 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on the information of deals with the depositary receipts on the company's shares on non-active market.

Valuation of foreign currency derivatives contracts of RR 2.9 billion using non-observable inputs

The input used for estimation of fair values of foreign currency derivatives as at 31 March 2016 was the yield to maturity of the Belarusian Eurobonds in USD with maturity date in January, 2018, amounting to 6.31%.

The obligations in Belarusian roubles were estimated against the prevailing rate of attracting funds in Belarusian roubles which is 23.0%. Should the input rate for Belarusian roubles decrease for 1,000 basis points the carrying value of the foreign currency derivatives would be RR 0.01 billion lower.

The following table shows a reconciliation of the opening and closing amount of Level 3 financial assets which are recorded as at fair value as at 31 December 2015:

<i>in billions of Russian Roubles</i>	At 31 December 2014	Total gains reported in statement of profit or loss	Foreign currency revaluation	Total gains reported in other compre- hensive income	Purchases	Sales	Transfers to Level 3	At 31 December 2015
Financial assets								
Trading securities	0.6	—	—	—	—	(0.6)	0.1	0.1
Securities designated as at fair value through profit or loss	14.5	2.9	—	—	2.8	—	—	20.2
Investment securities available-for-sale	—	—	0.4	2.4	—	—	—	2.8
Derivative financial instruments	19.2	6.9	0.2	—	2.2	(17.1)	—	11.4
Total level 3 financial assets	34.3	9.8	0.6	2.4	5.0	(17.7)	0.1	34.5

For the year ended 31 December 2015 the gains in the amount of RR 4.4 billion reported in the consolidated statement of profit or loss on Level 3 financial assets were unrealized.

Total gains recognized as profit or loss on securities designated as at fair value through profit or loss which are presented in the table above are reported in the statement of profit or loss within net gains / (losses) arising from securities designated as at fair value through profit or loss.

Total gains recognized as profit or loss on derivative financial instruments which are presented in the table above are reported in the statement of profit or loss within net gains arising from trading in foreign currencies, operations with foreign currency derivatives and foreign exchange translation; within net losses arising from operations with precious metals, precious metals derivatives and precious metals accounts translation and within net gains arising from operations with other derivatives.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Valuation of share in a real estate company of RR 7.3 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following key assumptions: WACC and estimated capitalization rate (CapRate) which depend on forecasts on property prices. WACC as at 31 December 2015 is 15.0%, CapRate – 12%.

Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.2 billion lower / RR 0.2 billion higher. Should the capitalization rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 1.3 billion lower / RR 1.6 billion higher.

Valuation of non-voting share in a special investment fund (SIF) with investments in oil companies of RR 5.3 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following key assumptions: WACC and estimated guaranteed fixed yield on exit. Guaranteed fixed yield is not linked to the market and so has immaterial influence on the value of the financial instrument. WACC as at 31 December 2015 is 13.5%.

Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.05 billion lower / RR 0.05 billion higher.

Valuation of shares of an international payment system of RR 2.7 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on the valuation of up-front consideration due to the expected sale of shares.

Valuation of investment in a mining company of RR 4.7 billion using valuation techniques based on non-observable inputs

Fair value of investments was determined based on net assets value, while valuation of the investments in the company's operational subsidiaries was based on discounted cash flow model using the following key assumptions: WACC, operational expenses, cost of investments, price and volume of sale.

WACC of operational companies as at 31 December 2015 is 19.5%, 19.3%, 18.5% and 19.5%. Should the discount rate used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of the financial instrument would be RR 0.3 billion lower / RR 0.4 billion higher.

Valuation of investment in a packaging company of RR 1.1 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on discounted cash flow model. Valuation of the investments in the company's operational subsidiaries was based on discounted cash flow model using the following key assumptions: rate of return on equity (ROE), price and volume of sale, operational expenses, cost of investments.

The estimated value of the required return on equity (ROE) for the operating companies amounted to 23.3%. Should ROE used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of a financial instrument would be RR 0.1 billion lower / RR 0.1 billion higher.

Valuation of investment in a construction company of RR 0.3 billion using valuation techniques based on non-observable inputs

Fair value of investment was determined based on discounted cash flow model. Valuation of the investments was based on discounted cash flow model using the following key assumptions: WACC, construction project revenue, operational expenses, cost of investments.

The estimated value of WACC for the operating companies amounted to 23.2%. Should WACC used by the Group in the valuation model increase / decrease by 1.0%, the carrying value of a financial instrument would be RR 0.02 billion lower / RR 0.02 billion higher.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Valuation of share in a company with a real estate located in Moscow of RR 1.2 billion using valuation techniques based on non-observable inputs

The Group determined fair value of investments based on discounted cash flow model using the following income parameters: sale price and rental rate.

Should the income parameters used by the Group in the valuation model increase / decrease by 5.0%, the carrying value of the financial instrument would be RR 0.04 billion higher / RR 0.04 billion lower.

Valuation of investments in mutual fund which main assets comprised real estate investments of RR 0.6 billion using valuation techniques based on non-observable inputs

Fair value of investments in mutual fund whose main assets comprise real estate investments are determined based on fair value of properties. Each property is revalued regularly by independent appraisers using sales comparison and income approaches. Application of market average ranges, which is considered to be a reasonably possible change of assumptions used in valuation model for calculation of fair value of such units, results in increase / decrease of fair value by RR 0.06 billion in case of application of the highest / lowest end of the range respectively.

Valuation of foreign currency derivatives contracts of RR 11.4 billion using non-observable inputs

The input used for estimation of fair values of foreign currency derivatives as at 31 December 2015 was the yield to maturity of the Belarusian Eurobonds in USD with maturity date in January, 2018, amounting to 7.13%.

The obligations in Belarusian roubles were estimated against the prevailing rate of attracting funds in Belarusian roubles which is 27.5%. Should the input rate for Belarusian roubles decrease for 1,000 basis points the carrying value of the foreign currency derivatives would be RR 0.1 billion lower.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Fair values of financial assets and liabilities not accounted at fair value in the financial statements are disclosed below. There are following financial assets and financial liabilities not disclosed in the table below because their carrying amount is a reasonable approximation of fair value due to their short-term nature or repricing to current market rates:

- cash and cash equivalents;
- mandatory cash balances with central banks;
- other financial assets;
- other financial liabilities.

Fair values of financial assets not accounted for at fair value in the financial statements are as follows:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)		31 December 2015	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets carried at amortized cost				
Due from banks	628.6	628.6	750.6	750.6
Loans and advances to customers:				
- Commercial loans to legal entities	9,642.6	9,685.9	9,671.8	9,683.1
- Specialized loans to legal entities	4,184.1	4,131.0	4,353.8	4,202.6
- Consumer and other loans to individuals	1,458.5	1,457.7	1,546.5	1,541.9
- Mortgage loans to individuals	2,551.5	2,563.3	2,497.3	2,482.8
- Credit cards and overdrafts	542.3	542.3	528.6	528.6
- Car loans to individuals	122.9	120.3	129.8	127.4
Securities pledged under repurchase agreements:				
- Investment securities held-to-maturity pledged under repurchase agreements	116.4	115.1	72.4	72.9
Investment securities held-to-maturity	417.4	414.4	477.7	464.9
Total financial assets carried at amortized cost	19,664.3	19,658.6	20,028.5	19,854.8

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

30 Fair Value Disclosures (Continued)

Fair values of financial liabilities not accounted at fair value in the financial statements are as follows:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)		31 December 2015	
	Carrying value	Fair value	Carrying value	Fair value
Financial liabilities carried at amortized cost				
Due to banks	867.7	866.8	1,045.9	1,045.4
Due to Individuals:

Total financial liabilities carried at amortized cost	22,619.7	22,675.3	23,427.2	23,300.5

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

31 Transfers of Financial Assets and Pledged Assets

The following note provides a summary of financial assets which have been pledged or transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition.

The table below shows the amount of operations under sale and repurchase agreements which the Group enters into in the normal course of business.

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)				31 December 2015			
	Due to banks		Due to customers		Due to banks		Due to customers	
	Carrying value of assets	Carrying value of related liability	Carrying value of assets	Carrying value of related liability	Carrying value of assets	Carrying value of related liability	Carrying value of assets	Carrying value of related liability
Securities pledged under repurchase agreements	94.8	92.8	278.9	267.1	114.4	112.4	107.6	110.6
Securities issued by the Bank pledged under repurchase agreements	—	—	0.2	0.2	0.1	0.1	0.9	0.5
Securities of clients pledged under repurchase agreements	18.6	17.1	—	—	6.6	5.9	—	—
Total before margin calls	113.4	109.9	279.1	267.3	121.1	118.4	108.5	111.1
Other financial assets (margin calls under repurchase agreements)	—	—	0.1	—	12.8	—	0.1	—
Total	113.4	109.9	279.2	267.3	133.9	118.4	108.6	111.1

Refer to Note 8 for information on details of own securities portfolio pledged under repurchase agreements.

In the normal course of business, the Group makes borrowings on interbank market using different financial instruments as collateral to support its everyday operations in terms of liquidity.

The summary of the assets transferred without derecognition and pledged assets is presented below:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)		31 December 2015	
	Carrying value of assets	Carrying value of related liability	Carrying value of assets	Carrying value of related liability
Cash and cash equivalents	—	—	0.2	—
Loans to corporate customers	381.6	301.3	372.0	290.8
Loans to individuals	7.8	6.8	8.5	7.2
Securities	23.2	17.5	41.1	31.3
Other assets	—	—	8.3	3.9
Total	412.6	325.6	430.1	333.2

Assets transferred without derecognition are represented by loans to individuals pledged under mortgage securitization programme of Sberbank. Refer to Note 15 for detailed information on bonds issued under this programme. Other assets represented in the table above are pledged.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

31 Transfers of Financial Assets and Pledged Assets (Continued)

The Group also enters into reverse sale and repurchase agreements. The summary of such operations is provided in the table below:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)		31 December 2015	
	Amount of loans granted under repo agreements	Fair value of securities received as collateral	Amount of loans granted under repo agreements	Fair value of securities received as collateral
Cash and cash equivalents	105.6	116.9	89.2	100.6
Due from banks	276.8	323.3	217.4	256.0
Loans and advances to customers	95.0	137.2	121.6	171.6
Total	477.4	577.4	428.2	528.2

32 Offsetting of Financial Instruments

Financial instruments subject to offsetting, enforceable master netting (ISDA, RISDA, etc.) and similar arrangements are as follows as at 31 March 2016:

<i>(unaudited)</i> <i>in billions of Russian Roubles</i>	Gross amount of recognized financial assets/ liabilities	Gross amount of recognized financial assets/ liabilities set off in the statement of financial position	Net amount of financial assets/ liabilities presented in the statement of financial position	Related amounts not set off in the statement of financial position		Net amount
				Financial instruments	Cash collateral	
Financial assets						
Derivative financial assets	376.8	—	376.8	(211.6)	(49.9)	115.3
Reverse repurchase agreements	477.4	—	477.4	(477.4)	—	—
Total financial assets	854.2	—	854.2	(689.0)	(49.9)	115.3
Financial liabilities						
Derivative financial liabilities	360.3	—	360.3	(211.6)	(67.1)	81.6
Direct repurchase agreements	377.2	—	377.2	(372.4)	—	4.8
Total financial liabilities	737.5	—	737.5	(584.0)	(67.1)	86.4

The comparative information as at 31 December 2015 is presented in the table below:

<i>in billions of Russian Roubles</i>	Gross amount of recognized financial assets/ liabilities	Gross amount of recognized financial assets/ liabilities set off in the statement of financial position	Net amount of financial assets/ liabilities presented in the statement of financial position	Related amounts not set off in the statement of financial position		Net amount
				Financial instruments	Cash collateral	
Financial assets						
Derivative financial assets	440.6	—	440.6	(197.1)	(50.1)	193.4
Reverse repurchase agreements	428.2	—	428.2	(428.2)	—	—
Total financial assets	868.8	—	868.8	(625.3)	(50.1)	193.4
Financial liabilities						
Derivative financial liabilities	387.3	—	387.3	(197.1)	(98.9)	91.3
Direct repurchase agreements	229.5	—	229.5	(222.8)	—	6.7
Total financial liabilities	616.8	—	616.8	(419.9)	(98.9)	98.0

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

32 Offsetting of Financial Instruments (Continued)

The Group has master netting arrangements with counterparty banks, which are enforceable in case of default. The Group also made margin deposits with clearing house counterparty as collateral for its outstanding derivative positions. The counterparty may set off the Group's liabilities with the margin deposit in case of default.

The disclosure does not apply to loans and advances to customers and related customer deposits unless they are set off in the statement of financial position.

33 Related Party Transactions

For the purposes of these interim condensed consolidated financial statements, parties are considered to be related if one party has the ability to control the other party, is under common control, or can exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

The Group's principal shareholder is the Bank of Russia (refer to Note 1). Other related parties in the tables below comprise key management personnel, their close family members, associated companies of the Group. Disclosures are made in Note 34 for significant transactions with state-controlled entities and government bodies.

As at 31 March 2016 and 31 December 2015, the outstanding balances with the Bank of Russia and other related parties were as follows:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)		31 December 2015	
	Bank of Russia	Other related parties	Bank of Russia	Other related parties
Assets				
Cash and cash equivalents	688.3	—	472.7	—
Mandatory cash balances with the Bank of Russia	130.4	—	118.5	—
Due from banks	2.8	—	1.8	—
Gross loans and advances to customers	—	35.3	—	36.7
Other assets	—	0.8	—	0.9
Liabilities				
Due to banks	290.6	—	269.8	—
Due to individuals	—	7.3	—	7.9
Due to corporate customers	—	0.4	—	2.2
Subordinated debt	512.5	—	504.5	—
Other liabilities	—	2.0	—	0.6

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

33 Related Party Transactions (Continued)

The income and expense items with the Bank of Russia and other related parties for the three months ended 31 March 2016 and 31 March 2015 were as follows:

<i>(unaudited)</i> in billions of Russian Roubles	Three months ended 31 March			
	2016		2015	
	Bank of Russia	Other related parties	Bank of Russia	Other related parties
Interest income	0.2	0.9	0.1	0.5
Interest expense on subordinated debt	(7.9)	—	(7.9)	—
Interest expense other than on subordinated debt	(7.7)	(0.2)	(79.4)	(0.2)
Revenue of non-banking business activities	—	0.1	—	0.5
Commission expense	(0.3)	—	(0.4)	(0.1)
Operating expenses	—	(1.3)	—	—

For the three months ended 31 March 2016, regular remuneration of the members of the key management personnel comprised salaries and bonuses totaling RR 0.8 billion (for the three months ended 31 March 2015: RR 0.2 billion).

Also in 2015 the Bank has introduced a long term cash settled motivation program for the key management personnel with share-based features. The program has been designed within a framework of risk oriented remuneration and is in full compliance with the requirements of the Bank of Russia on the remuneration system for Russian credit institutions. The program parameters are as follows:

- 40% of the variable part of the annual compensation is deferred and is paid in 3 annual installments;
- payments to the participants of the program are contingent upon the Bank's positive performance, e.g. if the Bank has a loss in any of the 3 years following the year in which the award was granted, payments to the participants are forfeited for that particular year;
- awards may be fully or partially forfeited, for example, due to individual misconduct (including a breach of regulations) or termination for cause and also due to negative individual contributions to the Bank's results.

For the three months ended 31 March 2016 share-based long term compensation has amounted to RR 0.4 billion (for the three months ended 31 March 2015: nil).

Share-based long term compensation is payable in cash, and is remeasured to fair value at each reporting date based on the average value of the Bank's ordinary shares for the preceding 6 months. Payables on share-based long term compensation as of 31 March 2016 amounted to RR 0.9 billion (31 December 2015: 0.6 billion). The related obligations are included in other financial liabilities in the consolidated statement of financial position until paid.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

34 Operations with State-Controlled Entities and Government Bodies

In the normal course of business, the Group enters into contractual agreements with the government of the Russian Federation and entities controlled by it. The Group provides the state-controlled entities and government bodies with a full range of banking services including, but not limited to, lending, deposit-taking, issue of guarantees, operations with securities, cash and settlement transactions. 36 Capital Adequacy Ratio

The Group's objectives when managing capital are (i) to comply with the regulatory capital requirements set by the Bank of Russia and (ii) to safeguard the Group's ability to continue as a going concern.

According to requirements set by the Bank of Russia statutory capital ratio has to be maintained by the Bank above the minimum level of 10.0%. As at 31 March 2016 this regulatory capital adequacy ratio N1.0 was 11.5% (31 December 2015: 11.9%). Compliance with capital adequacy ratios set by the Bank of Russia is monitored monthly with reports outlining the calculation.

Selected Notes to the Interim Condensed Consolidated Financial Statements – 31 March 2016

36 Capital Adequacy Ratio (Continued)

The Group also monitors capital adequacy ratio based on Basel Accord to make sure it maintains a level of at least 8.0%. As at 31 March 2016 and 31 December 2015, Capital Adequacy Ratios calculated by the Group in accordance with the International Convergence of Capital Measurement and Capital Standards (July 1988, updated to November 2005) and Amendment to the Capital Accord to incorporate market risks (updated November 2005), commonly known as Basel 1 requirements, were as follows:

<i>in billions of Russian Roubles</i>	31 March 2016 (unaudited)	31 December 2015
