## **A General principles**

### **Introduction and Overview**

The present quarterly notice for the Group Tele Columbus AG describes the essential information about the notification period.

Following the introduction, the Consolidated Balance Sheet, Consolidated Income Statement and Consolidated Cash Flow as of 31 March 2016, are presented below. Additionally explanations on individual items, as well as the assets situation, profit situation and financing structure are presented.

The functional currency of the Quarterly Statement is the Euro. Amounts are stated in thousands of Euro (hereafter “TEUR”) unless stated otherwise. Rounding differences may arise due to the rounding in TEUR (positive and negative).

The consolidated Quarterly Statement was prepared based on the assumption of continued business operations (“going concern”).

### **Group description**

Tele Columbus AG, Goslarer Ufer 39, 10589 Berlin is the parent company of the Tele Columbus Group. Tele Columbus Group is the third largest cable operator in Germany by customers, as well a regional market leader in most of the eastern federal states of Germany. The range of services is limited to the Federal Republic of Germany, notably to Berlin, Brandenburg, Saxony, Saxony-Anhalt and Thuringia. Approximately 35 % of the Group’s holdings are in the remaining region of Germany.

Tele Columbus Group primarily operates cable networks of levels 3 and 4. Network of level 3, also known as NE3, called Level 3 or L3, is a cable network that transmits the signals from regional distribution networks to the transfer point outside of the housing unit of the customer. Network of level 4, also called NE4, Level 4 or L4, refers to a cable network within a residential area that distributes the signal from the transfer point outside of the housing unit to the socket in the apartment of the customer. As an integrated network operator at both network levels, the group specialises in providing high-quality and integrated retail services from a single source. At locations where the group does not possess its own network elements, the corresponding network services are purchased. In addition to the operation of cable networks, Tele Columbus Group is also active in the B2B-constructions services sectors. The B2B- business comprises products for the provision of businesses with bandwidth services for business customer networking, products for the supply of business customers with Internet and telephony, as well as network monitoring and the marketing of data centres. The construction services include the establishment of fibre optic urban networks, or linking residential areas to a proprietary backbone.

Tele Columbus customers are offered numerous services in the fields of television and telecommunications, in particular a basic range of cable television channels (CATV), premium TV packages (Premium TV), Internet and telephone services in the fixed network, and, since September 2015, mobile voice and data services. As of 31 March 2016, Tele Columbus hold a stock of around 3.6 million residential units (connected residential units). The Tele Columbus Group generates its revenue primarily from connection fees paid by customers for the supply of a CATV product. Approximately 95 % of end users are tenants in multi-family properties that belong to the stock of

for the quarter ending 31 March 2016

companies or cooperatives in the housing industry or are administered by the latter. The group has concluded long term licence and signal delivery contracts with these companies.

## **B Scope of consolidation**

There were no significant changes in the scope of consolidation in the Quarterly Statement compared with the reporting as of 31 December 2015. The opening balance sheets of the two major company acquisitions of the past financial year (primacom Group and pepcom Group) are still preliminary due to the extensive accounting requirements and documentation work stipulated by IFRS.

## **C Valuation and accounting policies**

For the three-month period to 31 March 2016, predominantly the same accounting principles and calculation and valuation methods as for the Consolidated Financial Statements of 31 December 2015 were applied. There were no significant changes due to new applicable IFRS or accounting policies.

There are no significant changes in the arbitrary decisions and estimates in the first quarter ending 31 March 2016 in comparison with the Consolidated Financial Statement as per 31 December 2015.

## D Supplementary information on the Income Statement and Balance Sheet

### D.1 Revenues

TEUR	1 Jan to 31 Mar 2016	1 Jan to 31 Mar 2015
Analogue and digital, ongoing	51,989	31,334
Internet/telephony	34,715	14,042
Analogue and digital, one-time	6,935	143
Ancillary digital premium services	7,371	2,761
Other transmission fees	3,073	1,602
Leasing customer premise equipment	2,231	948
Sky	896	534
Sales of receiver	1,074	498
Shopping channels	573	397
Network rents	4,515	723
Data center	946	47
Other	1,750	586
	<b>116,068</b>	<b>53,615</b>

The revenues of the Tele Columbus Group primarily include monthly subscription fees and, to a lesser extent, one-off installation and connection charges for basic analogue cable television services, as well as for additional digital services. Furthermore, charges for access to high-speed Internet and telephony are included. The increase in one-off revenues from the analogue and digital supply is mainly due to the acquisition of the primacom Group. The increase in revenues from network and data centre rentals is mainly due to the acquisition of the pepcom Group. Other revenues are primarily from network maintenance and construction services.

Quarterly Statement  
for the quarter ending 31 March 2016

## D.2 Other income

TEUR	1 Jan to 31 Mar 2016	1 Jan to 31 Mar 2015
Income from the derecognition of liabilities and reversal of provisions	342	1,829
Income from refundable IPO costs	-	4,395
Income from dunning fees	515	327
Income from marketing subsidies	253	192
Gains on disposal of non-current assets	525	826
Income from services	62	556
Income from sale	603	66
Income from connection and disconnection fees	94	108
Miscellaneous other income	1,663	2,557
	<b>4,057</b>	<b>10,856</b>

## D.3 Other expenses

Other expenses particularly incurred for the following items:

TEUR	1 Jan to 31 Mar 2016	1 Jan to 31 Mar 2015
Legal and advisory fees	-7,268	-6,213
Advertising	-3,128	-1,996
Impairment of receivables	-2,126	-1,298
Occupancy costs	-2,048	-950
Incidental bank charges	-330	-3,711
Office supplies	-139	-91
Fees and contributions	-150	-88
Maintenance	-415	-12
Insurance	-353	-85

Communication costs	-892	-349
Vehicle expenses	-746	-305
Administrative expenses	-196	-95
Travel expenses	-428	-231
Losses on disposal of non-current assets	-393	-100
Miscellaneous other expenses	-1,084	-230
	<b>-20,719</b>	<b>-16,650</b>

The decrease in bank transaction costs is related to the increased banking fees for the IPO in the reporting period 2015, which could not be recognised as part of equity in connection with the capital increase in 2015.

Quarterly Statement  
for the quarter ending 31 March 2016

The general increase in expenses is mainly attributable to the acquisition of the pepcom Group and primacom Group.

## D.4 Intangible and fixed assets

Additions to fixed assets in the first quarter of 2016 primarily resulted from investments in technical equipment and machinery as well as assets under construction and prepayments. Declines in tangible and intangible assets in the first quarter of 2016 were primarily due to depreciation and amortisation expenses.

The goodwill of the first quarter 2016 was reduced by TEUR 3,536 to TEUR 1,073,725 (2015: TEUR 1,077,262) compared to the previous year due to an opening balance adjustment for pepcom Group.

## D.5 Trade receivables and derivative financial instruments

---

TEUR	31 Mar 2016	31 Dec 2015
Trade receivables - gross	59,666	53,195
Impairment loss	-13,645	-13,409
<b>Trade receivables - net</b>	<b>46,021</b>	<b>39,785</b>

---

Additionally, there were also receivables from goods and services from related parties.

Regarding the carrying amounts for trade receivables pledged as collaterals for liabilities, please refer to the explanations in section D.6 “Liabilities to banks”.

The derivative financial instruments shown in the amount of TEUR 2,246 (2015: TEUR -) result from two interest rate caps that were acquired by Tele Columbus AG in February 2016. Please refer to the notes in section D.6 “Liabilities to banks”.

Quarterly Statement  
for the quarter ending 31 March 2016

## D.6 Liabilities to banks

TEUR	31 Mar 2016	31 Dec 2015
Liabilities to banks - nominal values	1,221,415	1,218,184
Accrued interest	4,210	2,695
<i>Non-current Liabilities to banks</i>	<b>1,225,625</b>	<b>1,220,879</b>
Liabilities to banks - nominal values	3,148	44,398
Accrued interest	1,728	5,511
<i>Current Liabilities to banks</i>	<b>4,876</b>	<b>49,909</b>
	<b>1,230,501</b>	<b>1,270,788</b>

At the balance sheet date the tranche A and C loans, the senior tranche incremental, the second-lien tranche and the senior revolving liabilities (facility B and C) amount (including outstanding interest) to:

TEUR	31 Mar 2016	31 Dec 2015
Senior Tranche A loan (matures on 02 January 2021)	369,771	370,987
Senior Tranche C loan (matures on 02 January 2021)	422,655	423,907
Senior Tranche Incremental (matures on 02 January 2021)	307,494	311,783
Second Lien Tranche A (matures on 30 July 2022)	115,747	111,964
Senior Revolving Facility (matures on 02 January 2020)	273	278
	<b>1,215,940</b>	<b>1,218,919</b>

In addition, loans in the amount of TEUR 2,487 (2015: TEUR 43,198) were recognised for the pepcom Group. The change results mainly from the premature repayment of the loan of Kabelfernsehen München Servicenter GmbH & Co. KG (hereafter “KMS KG”) with Deutsche Bank Luxembourg S.A. in the amount of TEUR 40,523 in January 2016.

In addition, Tele Columbus AG acquired two interest rate caps in February 2016 (interest rate of EURIBOR + 0.75 % for three months) with a nominal amount of TEUR 550,000 each, and a term until December 2020. Transaction amounting to TEUR 8,854 was paid in cash to the amount of TEUR 4,427. For the remaining option premium of TEUR 4,427 a bullet debt due 31 March 2018 is shown as liabilities to banks amounting to TEUR 3,977 (nominal value) as of 31 March 2016.

Quarterly Statement  
for the quarter ending 31 March 2016

The value of the collateral provided for the loans at the respective balance sheet dates is as follows:

TEUR	31 Mar 2016	31 Dec 2015
Shares in affiliated companies	1,463,443	1,479,043
Trade receivables	8,917	14,042
	<b>1,472,360</b>	<b>1,493,085</b>

As of 31 December 2015, directly enforceable guarantees up to a maximum of TEUR 21,000 were granted, which were terminated by premature repayment of the loans by pepcom Group in January 2016.

## **D.7 Liabilities from trade payables, other financial liabilities, other liabilities and deferred income**

Trade payables in the amount of TEUR 61,394 (2015: TEUR 76,356) primarily consist of payments related to signal delivery contracts, discounts, security deposits as well as legal and consulting costs including the corresponding provisions for the outstanding invoices.

The deferred income in the amount of TEUR 19,824 (2015: TEUR 6,659) essentially consists of deferred revenue from customers for prepaid annual fees and accruals for purchases of hardware paid for with monthly customer contributions.

The other financial liabilities amounting to TEUR 84,160 (2015: TEUR 85,569) primarily relate to lease obligations for the use of infrastructure in the amount of TEUR 27,074 (2015: TEUR 28,583), as well as minority interests of KMS KG in the amount of TEUR 54,590 (2015: TEUR 54,583), which are accounted for as long-term liabilities in the financial statements, since the owner has the right to sell all of the shares at any time.

The other liabilities in the amount of TEUR 26,826 (2015: TEUR 21,733) primarily include customer deposits, employee bonuses, audit costs, compensation and accruals.

## E Other supplementary information

### E.1 Related parties

There were no material changes in the relationships between related parties compared to 31 December 2015.

The following overview shows income and expenses from transactions with related parties:

TEUR	1 Jan to 31 Mar 2016	1 Jan to 31 Mar 2015
<b>Sale of goods and services</b>		
Associates	1,264	241
<b>Acquisition of goods and services</b>		
Associates	-476	-762
<b>Other</b>		
Associates		
Other income (+)/expenses (-)	2	-890

The increase in the item sales of goods and services is related to the acquisition of Deutsche Netzmarketing GmbH in the third quarter of 2015.

Other net income and expenses in the first quarter of 2015 mainly included rental income and costs.

The decrease in acquisition of goods and services as well as in the other net income and expenses is related to the disposal of Stadtwerke Magdeburg, which is no longer treated as a related company beginning from the second quarter of 2015.

In the first quarter of 2016, there are only minor reimbursements with related parties.

## E.2 Risk management

### *E.2.1 Risk management of financial instruments and interest rate risks*

In February 2016, two interest caps (interest rate of EURIBOR + 0.75% for three months) were acquired at a nominal amount of TEUR 550,000 each and maturity in December 2020.

Moreover, there were neither significant changes to the risk management objectives and methods of the company nor the nature and extent of risks arising from financial instruments for the three month period ending 31 March 2016 compared to the Consolidated Financial Statements as of 31 December 2015.

### *E.2.2 Liquidity risks*

Liquidity risk is defined as the risk that existing liquidity reserves are not sufficient to meet the financial obligations on time. Liquidity risks may also arise if outflows from operating activities or investment activities become necessary. Furthermore, liquidity risks may arise from financing activities. This would be the case if short-term cash outflows for the repayment of financial liabilities are necessary due to the deferment of payments, while sufficient cash inflows from operating activities cannot be generated, and sufficient liquid funds are not available to cover the due payments.

Liquidity is to be assured by a liquidity forecast with a fixed planning horizon, as well as unused Tele Columbus Group lines. As of 31 March 2016, unused credit facilities totalling TEUR 125,000 are available for Tele Columbus Group.

The following table shows the contractual maturities of financial liabilities from loans:

TEUR	31 Mar 2016	31 Dec 2015
Less than one year	4,876	49,909
Between one and five years	1,113,275	1,108,915
More than five years	112,350	111,964
	1,230,501	1,270,788

Since 31 December 2015, a pepcom loan of TEUR 40,523 was replaced by an inter-company loan.

Quarterly Statement  
for the quarter ending 31 March 2016

### E.3 Segment information

The group has divided its operations into two product segments: “TV” and “Internet & Telephony”.

Relationships between the individual segments were eliminated.

The following table contains information on the individual reportable segments:

**1 Jan to 31 Mar 2016**

## E.4 Further information regarding the Quarterly Statement

The further information regarding the Quarterly Statement summarised below relates to Tele Columbus Group and represents the asset situation, profit situation and financing structure for the first quarter of 2016.

### E.4.1 Profit situation

The table below provides an overview of the development of the earnings:

TEUR	1 Jan to 31 Mar 2016	1 Jan to 31 Mar 2015
Revenue	116,068	53,615
<b>EBITDA</b>	<b>46,059</b>	<b>20,077</b>
Non recurring expenses (+)/income (-)	10,399	4,318
<b>Normalised EBIT</b>	<b>56,458</b>	<b>24,395</b>
<b>EBITDA</b>	<b>46,059</b>	<b>20,077</b>
Other finance income and expenses	-23,705	-11,541
Depreciation and amortisation expenses	-39,728	-11,549
Income tax	-292	-1,902
<b>Loss</b>	<b>-17,666</b>	<b>-4,915</b>

The change in revenue compared to the first quarter of the previous year was predominantly influenced by the acquisition of primacom Group and pepcom Group.

Revenue from the segment “TV” increased by 92.1 % to TEUR 72,987 (Q1/2015: TEUR 37,993). Sales in the segment “Internet & Telephony” increased significantly by 133.7 % from TEUR 14,257 to TEUR 33,321.

After adjustment of the acquisitions of primacom and pepcom, sales in the first quarter 2016 increased by TEUR 1,042 to TEUR 54,657 compared to the first quarter of 2015. The other operating income incurred a significant reduction by 62.6 % to TEUR 4,057 (Q1/2015: TEUR 10,856), which was mainly due to lower income from the reversal of provisions and write-off of liabilities in the amount of TEUR 342 (Q1/2015: TEUR 1,829). Furthermore, reimbursable costs were charged to the former parent company Tele Columbus Management S.à r.l. in the first quarter of 2015 in connection with the IPO.

Cost of materials in the first quarter 2016 increased by TEUR 16,674 to TEUR 34,897 compared to the corresponding prior period (Q1/2015: TEUR 18,223). The increase was primarily due to the material expenses of the primacom Group and pepcom Group with a total of TEUR 16,911.

Due to the factors as described above, the first quarter 2016 EBITDA amounted to TEUR 46,059, and increased by TEUR 25,982 compared to the corresponding prior-year quarter (Q1/2015: TEUR 20,077).

The “normalised EBITDA” was improved by 131.4 % to TEUR 56,458 compared with the previous year (Q1/2015: TEUR 24,395).

In the reporting period, the operating margin, which is defined as the ratio of “normalised EBITDA” to sales, increased to 48.6 % (Q1/2015: 45.5 %).

Quarterly Statement  
for the quarter ending 31 March 2016

The negative financial result increased by TEUR 12,164 over the first quarter 2015 to TEUR 23,705. This figure includes mainly interest expenses as well as transaction costs for interest bearing liabilities amounting to TEUR 6,666.

***E.4.2 Asset situation***

Tangible assets decreased by TEUR 12,682 to TEUR 635,888 compared to 31 December 2015. The decrease resulted primarily from reduced technical facilities, where depreciation exceeded investments for the reporting period.

Intangible assets and goodwill decreased by TEUR 13,307 to TEUR 1,365,529 compared to 31 December 2015. The decrease is mainly attributable to the reduction in goodwill by TEUR 3,536, and the customer base by TEUR 8,839. While the decline in the customer base mainly resulted from amortisation, the reduction in goodwill was due to changes of deferred taxes in the opening balance of pepcom Group.

The debt of the Group from liabilities to banks amounted to TEUR 1,230,501 (2015: TEUR 1,270,788) as of 31 March 2016. This corresponds to a share of 57.7 % (2015: 57.9 %) of the balance amount.

The long-term other financial liabilities amounted to TEUR 76,093 (2015: TEUR 77,558). The item mainly comprises long-term lease obligations, and liabilities of the pepcom Group to minority shareholders.

The long-term derivative financial instruments amounted to TEUR 12,639 (2015: TEUR 13,011) as of 31 March 2016. They result from embedded derivatives that were of negative value at the reporting date.

Current liabilities to banks amounted to TEUR 4,876 (2015: TEUR 49,909). The previous year's figure mainly consisted of liabilities of the pepcom Group amounting to TEUR 41,190, which were replaced by an inter-company loan.
