Business performance, financial position and financial performance

Business performance

The economy as a whole had a slow start to the year in Europe. The COVID-19 pandemic and the associated measures to combat it continue to be a burden. In the further course of the year, however, the partly extensive economic stimulus measures and rising vaccination levels among the population should lead to a gradual normalisation of the general conditions. Even though there will not be a return to pre-crisis levels in 2021, the International Monetary Fund (IMF) is retaining its forecast for a significant recovery in global production.

According to figures published by the German Association of the Automotive Industry (VDA), demand for cars was up on the biggest automotive markets in the first quarter of 2021. Car sales of 5.0 million new vehicles in China rose significantly by 76%. In the US, the volume of light vehicle sales (cars and light trucks) climbed by a respectable 11% to around 3.9 million vehicles in the first quarter. The European car market alone was barely able to improve: new registrations rose by just 1% to 3.1 million units. The course of the pandemic with its staggered effects in the individual regions is one of several reasons for this. Despite the significant recovery in car sales, pre-crisis levels have not yet been reached again. Car sales in China and the United States are approximately 3% below the respective levels for the first quarter of 2019. In Europe, the massive shortfall as against the first quarter of 2019 is almost 27%.

Against this backdrop, Aumann AG increased its order intake in the first quarter of 2021 by 31.8% yearon-year to €50.5 million. Revenues declined to €36.4 million in the first three months against the backdrop of the subdued order intake in the previous year. The E-mobility segment accounted for 62.6% of total revenues. Due to non-recurring expenses for concept and process validation, EBITDA in the first quarter was €-0.5 million, corresponding to an EBITDA margin of -1.4%.

The E-mobility segment's order intake jumped to \notin 44.7 million in the first quarter and therefore more than tripled compared to the same period last year. The E-Mobility segment's share of total order intake thus rose to 88.4%. Aumann has succeeded in winning a major contract in the field of battery technology with particularly good prospects. The company will develop highly automated production lines for the assembly of high-voltage batteries on behalf of a premium carmaker. The new solution will become a key technological pillar for the carmaker's electrification path and provides for further scalability across the associated production platform.

The increased order intake in the E-mobility segment underlines Aumann's technological expertise in automation solutions for electric drivetrains and battery systems. The company's strategic positioning in the electromobility market is proving to have a promising future, despite the challenges of the past two years. Thanks to a more flexible company structure, a liquidity position of \notin 93.8 million and a solid equity ratio of 66.2 %, Aumann has sufficient room to manoeuvre and improve the company's standing considerably in 2021.

Financial position and financial performance

The consolidated revenue of the Aumann Group declined by 24.3% to €36.4 million (previous year: €48.1 million).

EBITDA came to €-0.5 million by March (previous year: €1.5 million). After depreciation and amortisation of €1.1 million, the Aumann Group's EBIT amounted to €-1.6 million (previous year: €0.4 million). The financial result for the first three months was €-0.2 million with EBT of €-1.9 million (previous year: €0.2 million). Consolidated net profit amounted to €-1.3 million (previous year: €0.1 million) or €-0.08 per share (based on an average of 15,250,000 shares outstanding) in the first three months. Earnings were adjusted for the write-downs on hidden reserves at Aumann Limbach-Oberfrohna GmbH. Adjusted EBIT totalled €-1.6 million.

Order intake amounted to \in 50.5 million by March 2021. The order backlog came to \in 116.7 million in the first three months.

The Group's equity amounted to €186.8 million on 31 March 2021 (31 December 2020: €186.3 million). Based on total consolidated assets of €286.2 million, the equity ratio was 66.2%.

Working capital has fallen by €5.4 million since 31 December 2020.

Financial liabilities declined by €1.1 million to €16.0 million as at 31 March 2021 (31 December 2020: €17.1 million). Cash funds, including securities, totalled €93.8 million (31 December 2020: €90.2 million). Accordingly, net cash from the above liabilities and cash items amounted to €77.8 million as against €73.1 million on 31 December 2020.

Segments

Revenue in the e-mobility segment contracted by 23.6% year-on-year to \notin 22.8 million as at 31 March 2021. The segment's EBITDA amounted to \notin -1.3 million after the first three months (previous year: \notin 1.4 million). EBIT totalled \notin -2.0 million (previous year: \notin 0.7 million). Order intake in E-mobility totalled \notin 44.7 million. Revenue in the Classic segment amounted to \notin 13.6 million for the first quarter of the year (previous year: \notin 18.3 million). Segment EBITDA came to \notin 0.3 million as against the prior-year figure of \notin 0.1 million. EBIT totalled \notin -0.1 million (previous year: \notin -0.3 million). Order intake in the Classic segment amounted to \notin 1.3 million for the first quarter of the year (previous year: \notin 18.3 million). Segment EBITDA came to \notin 0.3 million as against the prior-year figure of \notin 0.1 million. EBIT totalled \notin -0.1 million (previous year: \notin -0.3 million). Order intake in the Classic segment amounted to \notin 5.9 million.

Outlook

In light of the weak incoming orders in the previous year, management is forecasting revenue of \notin 160 million with an EBITDA margin of between -2.5% and +2.5% in the 2021 financial year. Aumann is currently seeing first signs of a market recovery, and therefore assumes that order intake will recover.

Beelen, 17 May 2021
