

Driving Drug Discovery and Development fast forward

Forward-looking statement

Information set forth in this presentation contains forward-looking statements, which involve a number of risks and uncertainties. The forward-looking statements contained herein represent the judgement of Evotec as of the date of this presentation. Such forward-looking statements are neither promises nor guarantees, but are subject to a variety of risks and uncertainties, many of which are beyond our control, and which could cause actual results to differ materially from those contemplated in these forward-looking statements. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any such statements to reflect any change in our expectations or any change in events, conditions or circumstances on which any such statement is based.

Note:

The 2018 and 2019 results are not fully comparable. The difference stems from the acquisition of Evotec ID (Lyon) SAS, effective 01 July 2018. The results from Evotec ID (Lyon) SAS are only included from 01 July 2018 onwards. Furthermore, Just - Evotec Biologics (former Just Biotherapeutics) was acquired effective 02 July 2019. The results from Just - Evotec Biologics are included from 02 July 2019 onwards.

The accounting policies used to prepare this interim information are the same as those used to prepare the audited consolidated financial statements for the year ended 31 December 2018, except for the adoption of IFRS 16 which is applied at Evotec as of 01 January 2019.

Net income⁴⁾	29.7	52.3	

- Strong base business and Just – Evotec Biologics lead to significant revenue growth
- Unpartnered R&D expenses increase to € 25.7m (2018: € 16.0 m)
- One-off impairment due to termination of SGM-1019
- Improved other operating income due to recharges for Evotec ID (Lyon) and growing R&D tax credits
- Operating income 2018 positively impacted by one-off-effect from bargain purchase
- Adjusted Group EBITDA positively affected by IFRS 16 (€ 10.1 m) and impact from Just – Evotec Biologics
- Net Income is not comparable because of one-off effects

¹⁾ Differences may occur due to rounding

⁵⁾ 2018 is not restated for IFRS 16

Growth trend comes with increased gross margin

Revenues & Gross margin overview 9M 2019

Revenues from contracts with customers (in € m)

Gross margin¹⁾ (in %)

- Despite slightly lower contribution from milestones, upfronts and licenses in first 9M 2019, strong overall revenue growth and gross margin increase
- IFRS 15 contributes € 10.6 m to the revenue line (2018: € 8.1 m)
- Increase in base margin based on good capacity utilisation and favourable FX while PPA amortisation and IFRS 15 are burdensome to the GM

Very good Q3 shows strong utilization of platform

Condensed income statement Q3 2019 – Evotec Group

in € m¹⁾

	Q3 2019	Q3 2018	% vs. 2018
Revenues from contracts with customers	114.3	99.2	15%
Gross margin	30.6%	33.7%	–
• R&D expenses	(12.0)	(10.9)	10%

Operating income	22.4	37.8	(41%)
Adjusted Group EBITDA³⁾	35.0	30.1	16%
Net income⁴⁾	19.0	34.4	(45%)

- Q3 revenue growth driven by strong base business and contribution from Just – Evotec Biologics (€ 10.4 m)
- Q3 2018 included higher milestone, upfront and license revenues
- SG&A increase reflects organic growth and expenses from acquired companies and transactions
- Net income is not directly comparable to 2018. Net income decreased due to higher deferred tax expenses in Q3 2019 and positive effect in Q3 2018 from bargain purchase of the acquisition of Evotec ID (Lyon)

¹⁾ Differences may occur due to rounding

²⁾ 2018 data including reclasses of recharges according to IFRS 15

Guidance & next steps

Strong progress for our partners

EVT Execute – Major achievements 9M 2019

- Strong demand and performance on all business lines with strong increased demand from all customer groups
- New strategic multi-year drug discovery collaboration across multiple therapeutic areas with Takeda
- Milestone achievements (Bayer, Boehringer Ingelheim, Aeovian)
- Outlicensing of bio-similar project to Biocon Biologics from Just – Evotec Biologics
- Authorisation by AIFA¹⁾ to produce commercial drug products and orphan drugs – complements Evotec's fully integrated CMC offering

Well-balanced global customer mix

EVT Execute – Selected KPIs 9M 2019

“just the beginning ...” for dramatically improved access and processes in biologics

Just – Evotec Biologics – Value Proposition

Molecule and process optimization ensure predictable performance and manufacturability with significant time and cost savings.

Our modular production system enables maximum flexibility in terms of capacity and location.

James Thomas, PhD, Just – Evotec Biologics

Multimodality offering and partnering is reality

Initial achievements & outlook of Just – Evotec Biologics

- Integration of processes, services, and team into Evotec Group on track
- Teva alliance for design and development of high-productivity biomanufacturing
- Out-licensing of pre-clinical biosimilar asset with Biocon Biologics
- Strong initial revenue contribution of € 10.4 m in Q3
- New business “cross-selling” opportunities on horizon
- Webinar to share more detailed information on unique technological position and technological and capacity outlook planned before end 2019

Co-ownership for massive pipeline opportunities

EVT Innovate – Major achievements 9M 2019

- Very good pipeline progress
- Extension of iPSC partnership with Celgene
- Multiple new co-ownership agreements
- Collaboration with Celmatix in woman's health
- JV with Vifor in nephrology (after period-end)
- Building of leading position in Infectious Diseases via alliances (GARDP¹⁾, GNA Now, Helmholtz and Bill & Melinda Gates Foundation)

Precision medicine in kidney disease

Evotec and Vifor Joint Venture

CKD AFFECTS 1 IN 7 PEOPLE

- Chronic kidney disease (CKD) means your kidneys are damaged and losing ability to keep you healthy – CKD is the 9th leading cause of death in the United States
- Main causes of CKD are diabetes and high blood pressure
- Renal dialysis market size is > \$ 20 bn

VIFOR
PHARMA

&

evotec

- Focus on patient data driven target identification to pursue precision medicine for treatment of kidney diseases
- Leveraging clinical data provided by unique UK kidney biobank, NURTuRE, to build co-owned clinical assets
- € 25 m initial financing from Vifor into the 50:50 Joint Venture

Precision medicine in Women's Health

Evotec and Celmatix in e.g. PCOS

PCOS AFFECTS 1 IN 10 WOMEN

- Polycystic ovary syndrome (“PCOS”) is most frequent endocrine disorder – Underlying cause unknown
- PCOS is characterised by high levels of androgens (male hormones)
- Market size > \$ 5 bn

Focus on patient-centric approaches leveraging human genetic and big data into women's health specific drug discovery to build co-owned pipeline

First milestone achieved in less than 3 months

Evotec and Indivumed – precision medicine in colorectal cancer (CRC)

CRC AFFECTS 1 IN 20 PEOPLE

Colorectal Cancer (CRC)

- Third most common cancer type
 - Following lung and breast cancer;
2nd leading cause of cancer death
- Market size of > \$ 10 bn

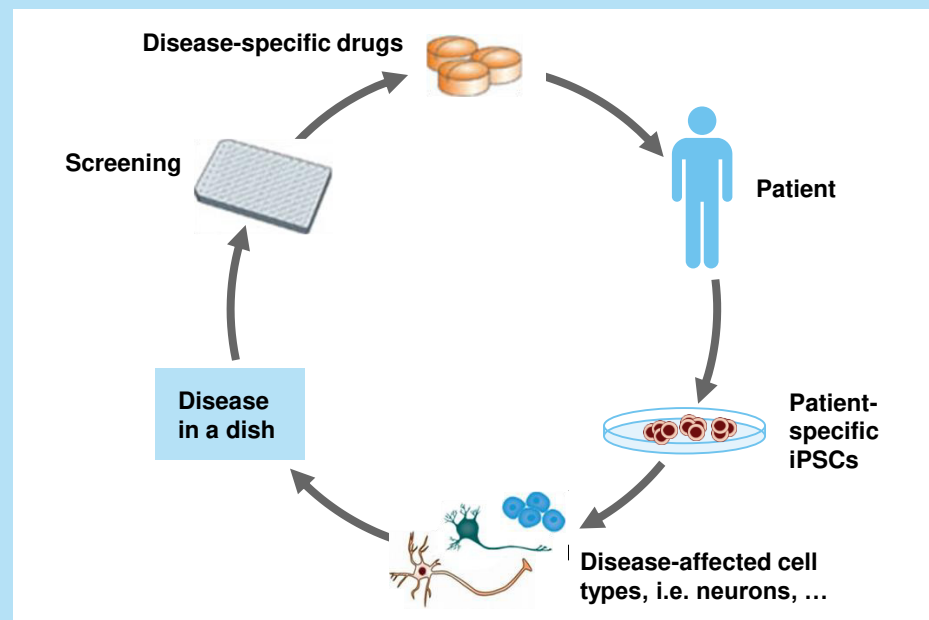

Focus on precision medicine to deliver highly effective and durable treatments with clear strategies for CRC patient stratification

Extension into 2023 triggers \$ 30 m payment

iPSC CNS alliance with Celgene

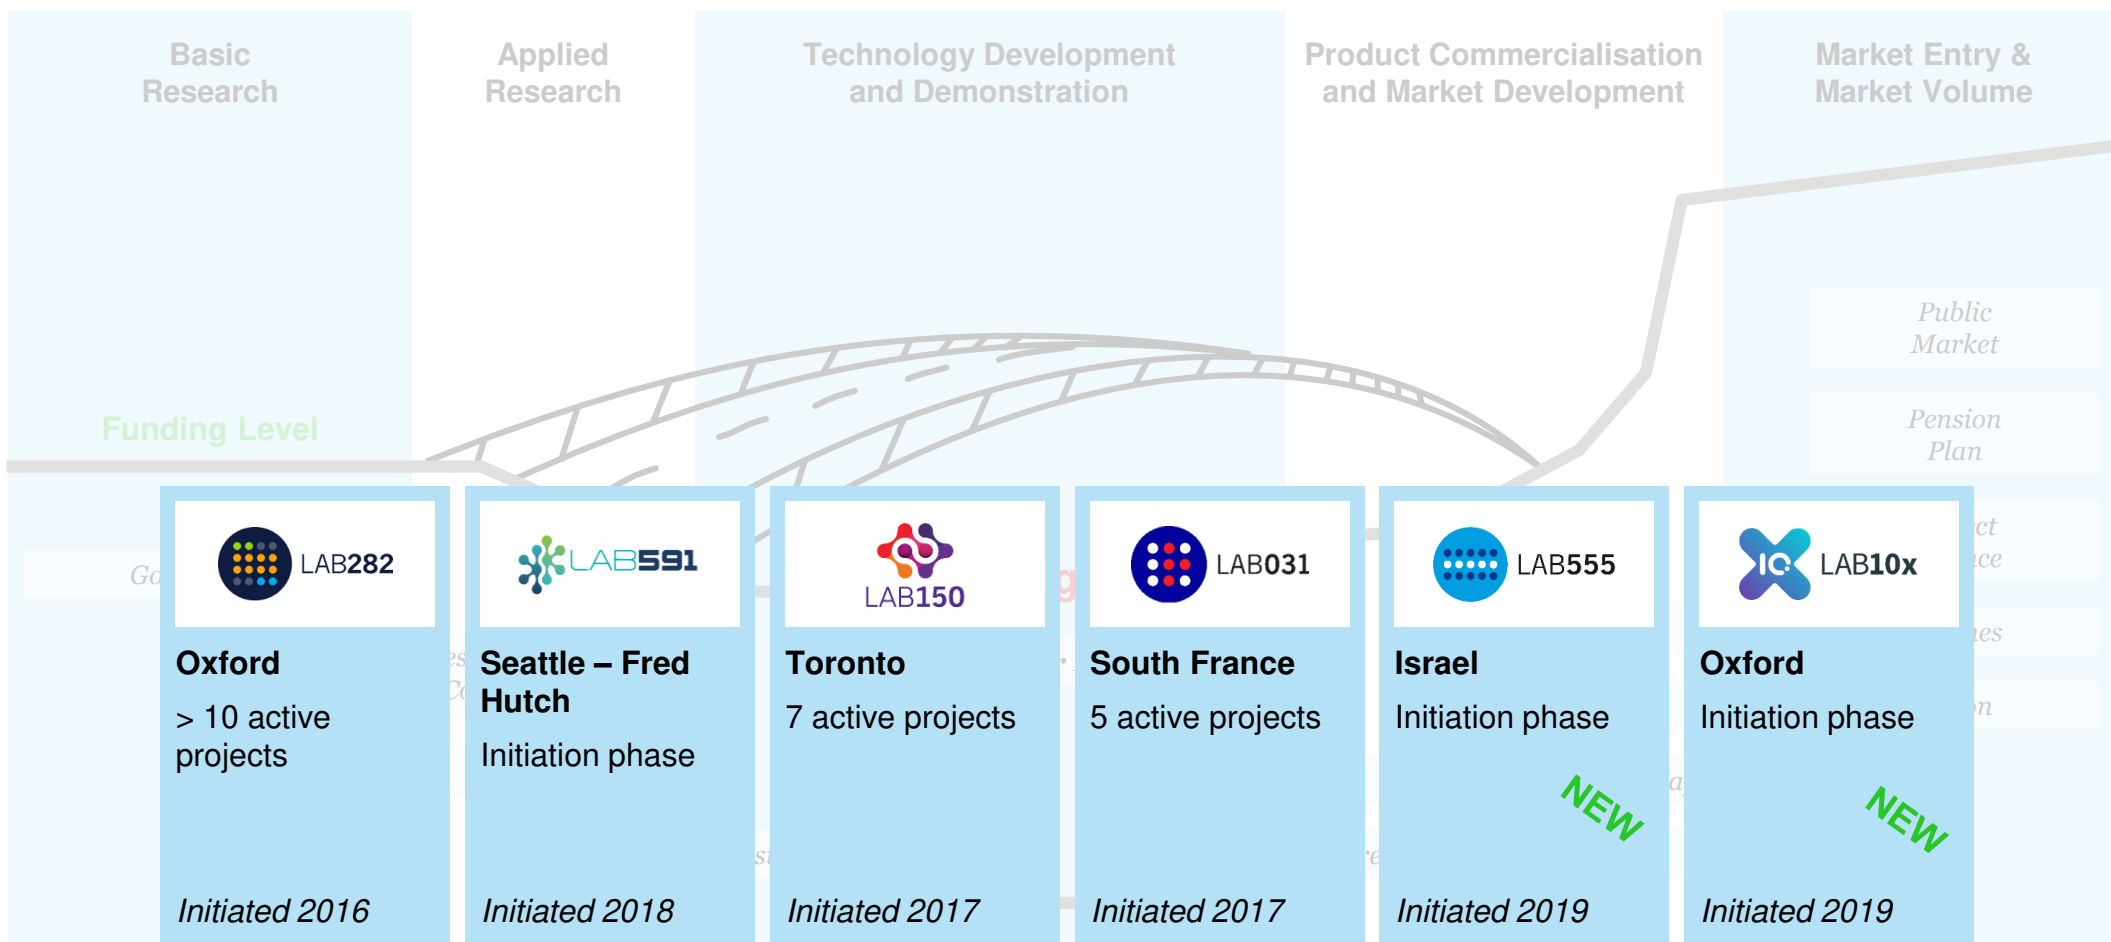

iPSC alliance in neurodegeneration

- Goal: Development of novel therapies for a broad range of neurodegenerative diseases
- Initiated 2016 initially for 5 years; Productivity and success trigger extension into 2023

BRIDGE concept continues rollout
