Business Performance from 1 January to 30 June 2022

- Sales revenues EUR 12.3 million -0.7 %
- Gross result for first six months (EBITDA) EUR 1.9 million +9.1 %
- Operating result (EBIT) EUR 1.0 million +6.0 %
- EBIT margin 8.4 % (2021: 7.9 %)
- Results from ordinary activities 936 kEUR (2021: 914 kEUR).
- Earnings per share EUR 0.13 (2021: EUR 0.13)

Dear Shareholders and Parties Interested in Geratherm Medical,

We successfully concluded the first half year of 2022 in spite of the overall underlying economic challenges. Although sales did slide slightly by -0.7 % in the first six months, the operating result did rise by +6.0 %. The positive earnings performance was supported primarily by the positive development posted by the segments Medical Devices, Respiratory and Incubator Systems.

The gross result of the overall performance was EUR 8.863 million (2021: EUR 8.777 million). The gross margin on sales was 72.0 % (2021: 70.8 %). The gross earnings (EBITDA) increased +9.1 % to EUR 1.888 million in the first six months of the financial year. The operating result EBIT during the first half of the year was EUR 1.040 million (2021: 981 kEUR).

The results from ordinary business activities amounted to 936 kEUR (2021: 914 kEUR). The shareholders' result after taxes for the first half of the year was 692 kEUR (2021: 621 kEUR) or EUR 0.13 per share (2021: EUR 0.13).

Facts and figures (in kEUR)

	II/22	I/22	IV/21	III/21	II/21
Sales	5,898	6,412	5,795	5,744	5,741
EBITDA margin	12.8 %	17.7 %	-9.5 %	19.6 %	11.8 %

EPS (EUR)	0.05	0.08	-0.19	0.08	0.04
Cash flow	707	821	-384	1,190	456

Sales development

Sales development by regions was inconsistent in the first half year of 2022. The American continent showed positive development, with the USA in particular catching up again significantly. All in all, Group sales remained almost constant despite the crises in the first six months.

There was a -6.2 % drop in sales on the European market. On the German market, we registered a decrease in sales. Sales in Germany in the first six months were -14.1 % lower than in the same period of the previous year. In the Middle East, we posted a -38.2 % drop in sales as a result of postponed orders. On the US market, sales posted in the first half of the year showed a very strong growth by +73.9 %, compared to the same period last year. The sales posted in South America increased by +11.6 %. We experienced a burgeoning market in the Other countries region. Here, sales showed a very strong growth of more than +100.0 %.

Sales by regions 1/1 to 30/6/2022

Geratherm Medical's products are primarily marketed internationally. In the first half of the year, 80.4 % (2021: 77.3 %) of Geratherm products were exported.

Sales by segments 1/1 to 30/6/2022

In the Healthcare Diagnostic segment, where we primarily market clinical thermometers, blood pressure monitors and women's health products to pharmacies and drugstores world-wide, we registered a decline in sales of -7.1 %. In the first half of the year, sales for all product groups, with the exception of Incubator Systems and Cardio/Stroke, decreased slightly, which is probably due to the general uncertainty involving the current global economic situation. The Healthcare Diagnostic segment accounted for 56.1 % of the total sales generated by the Geratherm Group.

In the Respiratory segment, where we offer sensors and products for monitoring pulmonary functions, we currently have a healthy demand for products that are needed for long-term COVID treatment. Although the sales posted by medical devices for measuring pulmonary function decreased by -6.5 % in the first six months, we do expect growth to return in the next few quarters, since we are currently having problems everywhere on the procurement market, which is delaying the delivery of products.

The development of sales in the Incubator Systems segment (formerly: Medical Warming Systems) was once again positive during the period under review. The growth in sales was due to the favourable development posted by LMT Medical, which was able to boost its sales by +83.9 %.

In the Cardio/Stroke segment, we managed to generate a slight jump in sales of +0.5 % in the first six months. Visiting hospitals or clinics remains not very simple as a result of the strict hygiene measures, which adversely affected operating activities.

Earnings situation

In the first six months of the 2022 financial year, we were able to close with a higher Group result compared to the same period of the prior year. Sales of -0.7 % with a gross profit of +1.0 % were about on the same level as the same period last year. Positive effects were provided by the considerably higher earnings reported by LMT Medical, and the initiated cost savings. With an EBIT margin of 8.4 % (2021: 7.9 %), the sales and earnings reported in the first half of the year were in line with our expectations.

The gross profit margin of sales during the first six months amounted to 72.0 % (2021: 70.8 %). At EUR 8.863 million, the gross profit was at about the same level as in the previous year, representing a plus of 86 kEUR.

In spite of constantly rising labour costs, the development of personnel expenses remained stable with a minus of -0.8 %. It was also possible to counteract the high rate of inflation by undertaking cost-cutting measures and reduce other operating expenses by -1.4 % to EUR 2.536 million. The gross profit (EBITDA) was EUR 1.888 million, an increase of 9.1 %. The write-offs increased by +13.3 % to 848 kEUR due to investments.

The operating result (EBIT) increased by +6.0 % to EUR 1.040 million. The financial results amounted to -104 kEUR (2021: -67 kEUR). The result from ordinary business activities for the first six months rose slightly to 936 kEUR (2021: 914 kEUR).

Taxes on profit decreased by more than 100.0 % to 281 kEUR. A consolidated net profit for the first six months amounted to 655 kEUR (2021: 833 kEUR).

Taking income and expenses recognised in the equity capital into account resulted in another negative result, essentially due to currency translations in the amount of -213 kEUR (2021: +190 kEUR). This is mainly driven by currency translations in the amount of kEUR -374 (2021: kEUR -178). The consolidated statement of comprehensive income showed a surplus of 441 kEUR for the first half of the year. Of this, -226 kEUR are assigned to minority interests such that the overall comprehensive income for the shareholders of the parent company is 667 kEUR (2021: 899 kEUR).

The result per share for the first six months is EUR 0.13 (2021: EUR 0.13).

Net assets and financial situation

Geratherm Medical enjoys a favourable asset situation. The balance sheet total of EUR 40.6 million is essentially formed by equity capital in the amount of EUR 23.0 million. The equity-to-assets ratio as of the reporting date was 56.6 % (2021: 53.9 %). The return on equity amounted to 6.0 % (2021: 0.7 %).

As of 30 June 2022, the company had cash, cash equivalents and securities in the amount of EUR 10.9 million (2021: EUR 6.5 million). As a result, the company has a solid financial position in spite of the high investments made over the past few years.

The long-term assets amounted to EUR 16.1 million (2021: EUR 14.9 million). The slight jump is due to the increase in tangible assets.

The short-term assets increased by +24.7 % to EUR 24.4 million. Inventories dropped by -3.1 % to EUR 8.3 million. The trade accounts receivable increased by +10.8 % to EUR 3.5 million. All in all, the "Receivables and other assets" item increased by +13.9 % to EUR 5.2 million.

Geratherm holds securities in the amount of EUR 2.5 million (2021: EUR 4.2 million). The cash and cash equivalents available as at 30 June 2022 amounted to EUR 8.4 million (2021: EUR 2.3 million).

The gross cash flow for the first six months of 2022 reduced to EUR 1.522 million (2021: EUR 1.528 million).

The cash flow from operations improved to EUR 1.743 million (2021: 224 kEUR). The cash flow from investments amounted to 105 kEUR (2021: 447 kEUR). The cash flow from financing activities was EUR 4.203 million (2021: EUR -2.761 million).

Research and development

Our research and development activities are currently concentrated in Geratherm Respiratory, Incubator Systems and Cardio/Stroke.

Staff

The Geratherm Group had a staff of 216 persons in total as of 30 June 2022 (2021: 234) with 204 employees in Germany.

Outlook

Geratherm Medical AG's activities are very international in terms of strategy, which has a compensating effect regionally. In our traditional export countries, we have continued to struggle with the different lockdown regulations and the consequences of the war in Ukraine.

The war in Ukraine and the resulting global economic problems such as energy prices, inflation and increasing costs continue to affect us in 2022. As we have outlined above, we are well positioned thanks to extensive cost savings and process optimisations.

Our clinical thermometers are currently being manufactured at full capacity. Production is still being further optimised on the basis of past and future investments in new, state-of-the-art production facilities to ensure that we are well positioned for the future.

Geratherm products for measuring pulmonary function should continue to register a healthy demand. apoplex products in the Cardio/Stroke segment should continue to post good development in 2022.

As a result of the ongoing uncertainty due to coronavirus requirements, we have decided again not to take any risks and will hold the annual general meeting virtually this year. This will take place on 26 August 2022. The Hamburg-based company UBJ has been commissioned with carrying out and organising the annual general meeting.

Geratal, August 2022

Christian Frick
Chief Executive Officer

Notes on Interim Consolidated Financial Statements for the Period from 1 January to 30 June 2022

Accounting and valuation methods

The interim consolidated financial statements of Geratherm Medical AG as at 30 June 2022 were prepared in accordance with the rules of the International Financial Reporting Standards (IFRS) valid on the date of the financial statements and in consideration of the guidance provided by the International Financial Reporting Interpretations Committee (IFRIC), as is mandatory in the European Union.

The accounting, evaluation and consolidation principles were maintained, as shown in the Notes to Consolidated Financial Statements for 2021 Fiscal Year. The valuation of assets and liabilities is based in part on estimates and/or assumptions about future developments. The estimates are based on past experience and other knowledge of the business transactions which are to be accounted for. For instance, the assessment of capitalisation requirements for development projects, the statements on economic useful lives for long-term intangible and tangible assets are based in particular on estimates and assumptions. In addition, the assessment of assets of the "hold and sell" category, which are not traded on an active market and are intangible assets that are not ready for use, is based on the corporate planning, which of course involves uncertainties such that the actual values may deviate in individual cases from the made assumptions and estimates. There are also estimates and assumptions relating to the contractual term of the leased office and storage space of subsidiaries. Estimates and the underlying assumptions are regularly checked and evaluated with regard to possible impact on accounting. There are also estimates relating to the loan obligations of the Brazilian subsidiary, which is currently in bankruptcy protection under Brazilian law. Estimates are also made when evaluating the valuation allowance due to the expected credit losses on trade accounts receivable and contractual assets as well as the recognition of deferred tax assets in relation to the availability and future taxable results, against which deductible temporary differences and tax losses carried forward can be used.

Consolidated Group

The changes occurred in the consolidation group as of 30 June 2022:

Company	Share quota 30/6/2022	Share quota 31/12/2021
GME Rechte und Beteiligungen GmbH, Geratal, Germany	100.00 %	100.00 %
apoplex medical technologies GmbH, Pirmasens, Germany <i>Subsidiary: apoplex medical technologies Spain SL Barcelona, Spain</i>	57.08 % 69.33 %	53.42 % 57.57 %
Geratherm Respiratory GmbH, Bad Kissingen, Germany	67.58 %	67.58 %
Geratherm Medical do Brasil Ltda., Sao Paulo, Brazil	51.00 %	51.00 %
Sensor Systems GmbH, Steinbach Hallenberg, Germany	100.00 %	100.00 %
Capillary Solutions GmbH, Geratal, Germany	100.00 %	100.00 %
LMT Medical Systems GmbH, Lübeck, Germany <i>Subsidiary of LMT Lübeck LMT Medical Systems Inc., Ohio, USA</i>	80.00 % 100.00 %	80.00 % 100.00 %

With the notarised purchase agreement from 2 March 2022, Geratherm Medical AG took over additional nominal capital shares of minority interests in apoplex medical technologies GmbH at a purchase price of 183 kEUR. As a result, the participation in the nominal capital of apoplex medical technologies GmbH increased by +3.66 % (25 kEUR). The purchase price difference in the amount of 158 kEUR was shown as revenue reserve in equity capital of the Group.

apoplex medical technologies GmbH acquired additional shares in apoplex medical technologies Spain SL during the second quarter of the year.

Equity capital

On 13 Apr. 2022, the management board had decided with the supervisory board, to increase the share capital of the company by partially using the existing authorised capital, excluding the subscription right of the shareholders, from EUR 4,949,990.00 by issuing 494,999 new shares made out in the name of the holder (this corresponds to 10 % of the previous share capital) at an issue price of EUR 8.50 per new share, for a total issue price of EUR 4,207,491.50, against cash contributions. The issue price corresponds to a premium of 13.33 % on the stock market price (closing price EUR 7.50).

The capital increase was already underwritten in full by the investor JotWe GmbH, Steinbach am Wald.

The development of the equity capital is shown in the consolidated statement of change to the shareholders' equity. The subscribed capital of Geratherm Medical AG amounted all in all to EUR 5,444,998 as at 30 June 2022 (2021: EUR 4,949,999) and is divided into 5,444,998 (2021: 4,949,999) share certificates issued to the bearers. The subscribed capital has been paid in full. As of the reporting date, there were no shares held by the company.

These interim consolidated financial statements as at 30 June 2022 were not audited or reviewed by the company's auditors.

Financial statement affidavit

To the best of my knowledge, and in accordance with the applicable accounting principles for interim financial reporting, the interim consolidated financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group, and the Group interim management report includes a fair review of the development and performance of the business and the position of the Group, together with a description of the principal opportunities and risks associated with the expected development of the Group for the remaining months of the financial year.
